Advanced Exam Booking

A global computer-based testing solution provider, **YouTestMe**, developed an advanced exam booking system.

In addition to a flexible exam design and superior reporting system, we now provide an **automated solution** for **delivery, registration, and scheduling**.

An unlimited number of testing sessions may be organized for a single test, each adapted to the specific environment.

1. Define Capacities

If the examination is performed at a physical location (e.g., testing center, classroom) or supervised by a certified proctor, you can determine the session's maximum seating capacity.

2. Include Examination Fee

Optionally, include a registration and cancelation fee or the compensation for rescheduling exams or any other privileges, such as additional training courses or exam preparation materials. YouTestMe GetCertified software has a user-friendly interface and supports payments with credit and debit cards.

3. Set Booking & Cancelation Deadlines

Allow booking in advance, specify dates and times by which the candidates can register and cancel their applications. And from the next release, the system will even warn candidates if the seating capacity is reaching its limits or reject the booking if the limit is reached!
