Company Overview

YouTestMe is a software development company with headquarters in Toronto, Canada.

Our company specializes in delivering secure and complete e-learning solutions, whereas key features include test management, item authoring, advanced reporting, and a security system.

Our goal is to continuously develop our platform's capabilities by following and creating new trends in the e-learning industry and always providing systematic yet simple knowledge evaluation.

We place the most attention on the data security and protection of our clients.

Many government and military organizations, large corporations, and educational institutions are the users of YouTestMe GetCertified, an enterprise solution designed for knowledge examination, training, and certification.

# Our Clients from Corporate Sector

Train & Onboard Employees Effectively

Organize training courses and certifications and sync data across the enterprise.
Build a high-performance culture and scale your business.

CLOUD OR ON-PREMISE
Maximum data security. Zero maintenance policy. Certified by U.S. government.

EASY ONBOARDING PROCESS
Integrate and sync data with your EE environment in seconds.

CUSTOM-TAILORED SOLUTION
Start with an off-shelf solution or have it custom designed to your scenario.

5

E-Learning Environment

Seamlessly sync your data across platforms.

In addition to the option to manually create users and export results via flat files, you can streamline the process by using the SSO and automate data exchange between YouTestMe and your LMS, HR, or any other platforms via LTI or API.

No expensive custom programming is required. Set up integrations in just a few clicks and get started immediately.
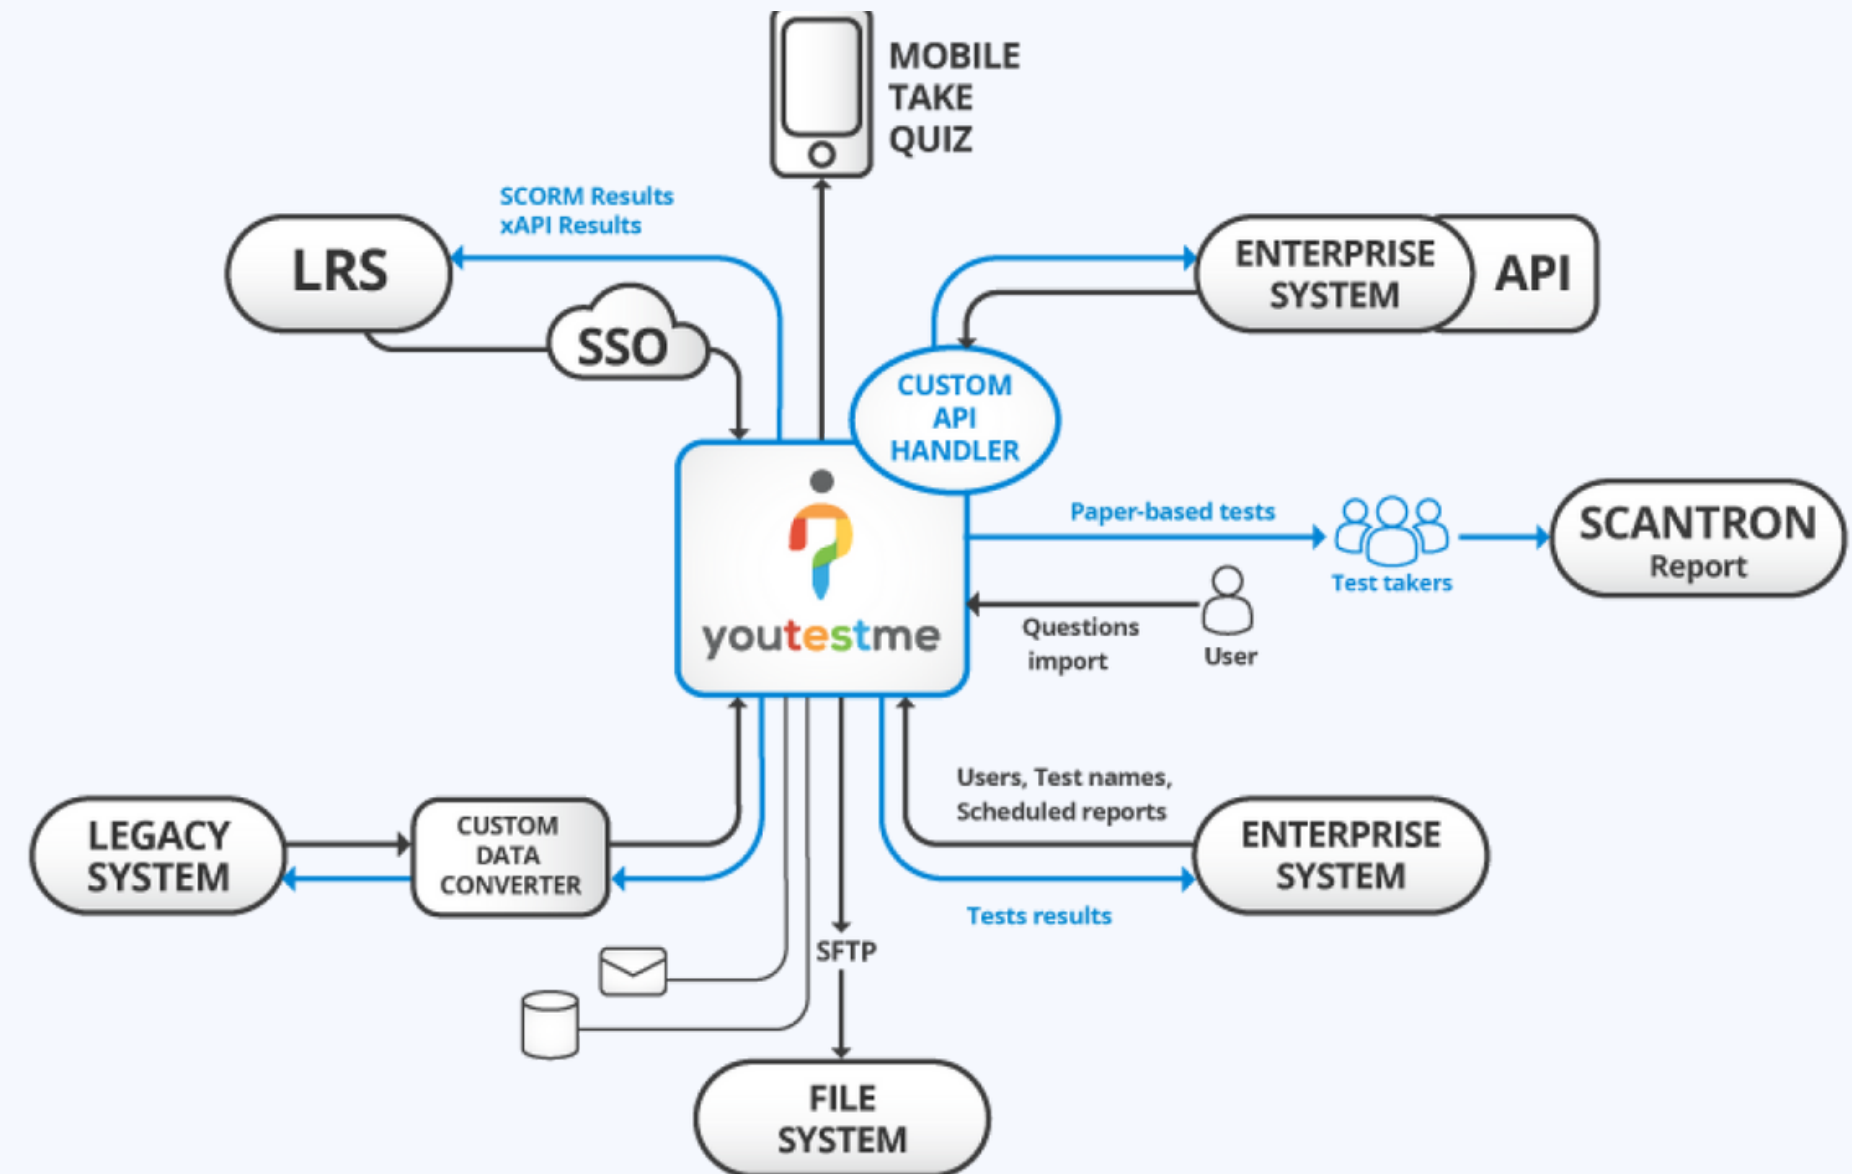

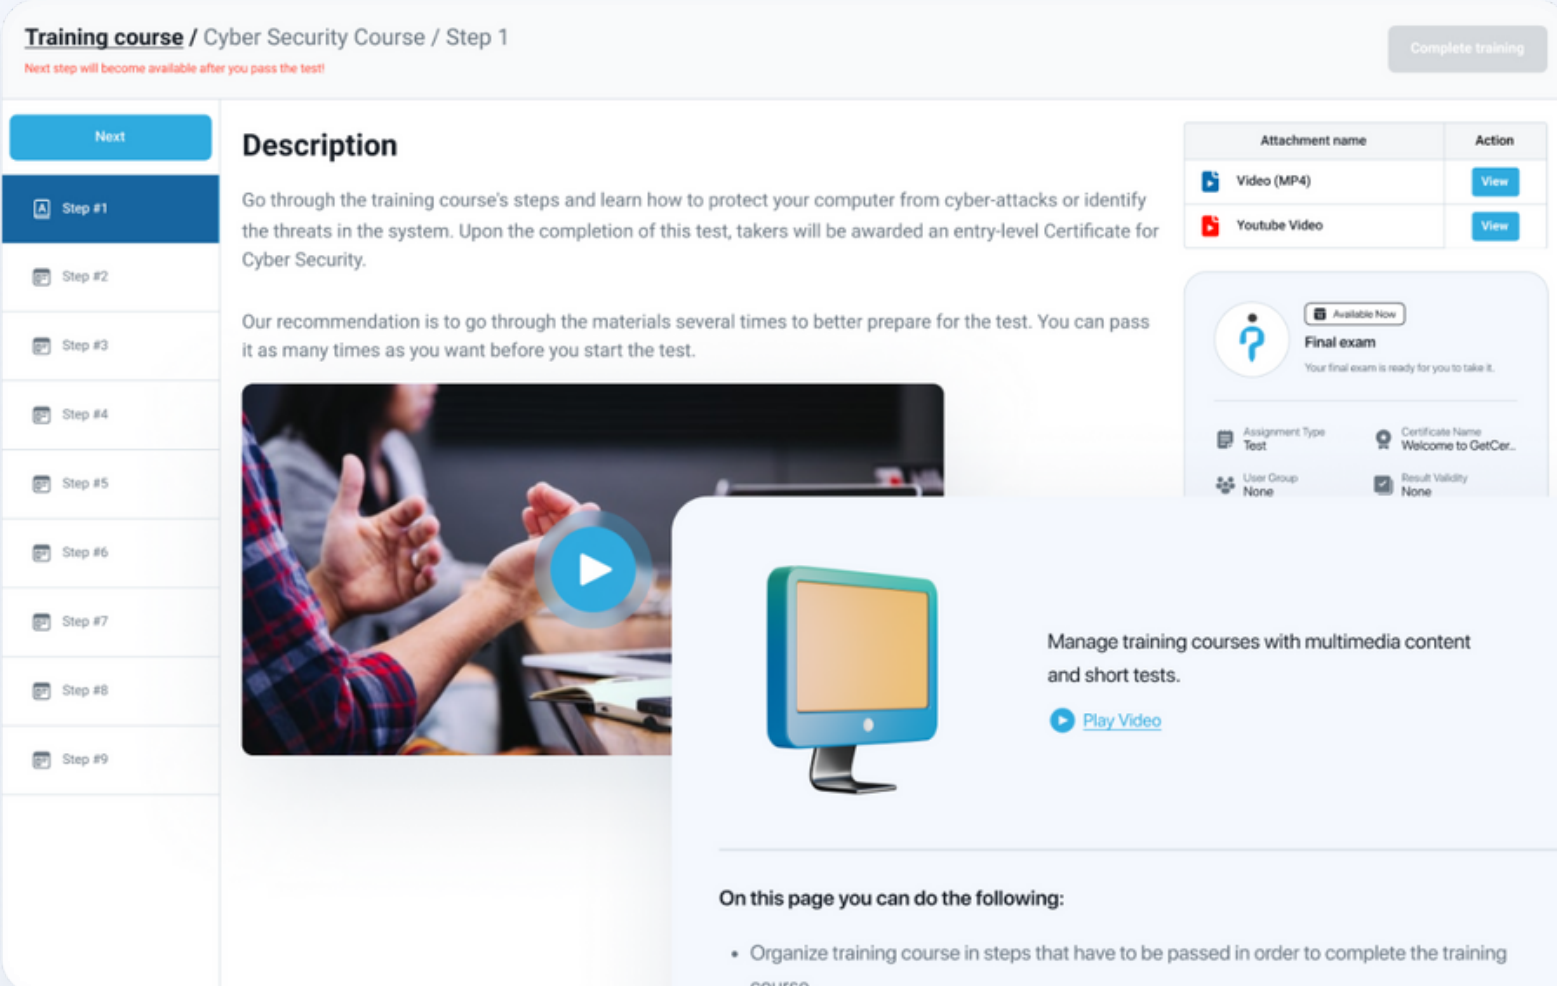

Powerful Learning Experience

Create engaging content to raise performance.

Trained employees mean better performance, which leads to higher profits. YouTestMe training module represents a single suite for all your enterprise learning needs.

Enrich the learning library with your internal materials or third-party content. Quickly add papers, videos, audio, articles, and more.

You can create learning paths that guide employees through a fully customizable course.

youtestme

Examination Process

**Measure the business impact of your program**

Organize practice and final exams with a predefined re-certification schedule.
The exam availability period is entirely up to you.
Some exams can be available at all times, and some only upon completing a training course.
Successful candidates can also be awarded custom branded certificates.

✓ **Import questions from your knowledge base**

✓ **Enable cheating prevention mechanisms**

✓ **Configure look and feel of the test**

✓ **Set up reporting metrics**

✓ **Available on desktops, laptops, tablets and mobile phones**
