

Virtual Interview Platform

Hundreds of Interviews. Zero Recruiters.

Redefine hiring with asynchronous, AI-powered interviews.

Candidate name
Emma Collins

Username
emma.collins

Role
Commercial analyst

Date
03.11.2025. 09:56

Final score
4.72

Session ID
emma77-1762159680246

Candidate Summary

The candidate showed a mix of technical understanding and communication challenges. While they demonstrated knowledge in specific areas, such as reassignment vs const, their explanation of block scope and hoisting was incomplete. They also struggled with accurately defining concepts like lifting state up. With guidance, this candidate may improve, but for now, their performance is not ready for a technical role.

Time-Saving

Automated shortlisting, conduct hundreds of interviews simultaneously

Increased fairness

Ensure consistency and eliminate bias with standardized evaluations

Precision hiring

Get data-backed, explainable results for confident hiring

Integrate easily

Connect with existing HR systems via REST API or ATS integration

How It Works

From application to hire-ready candidate list in minutes

1 Candidates apply online seamlessly

2 Interview links sent automatically

3 Candidates record video responses

4 AI analyzes every answer

5 AI ranks top performers

6 Detailed reports delivered instantly

Result: A prioritized talent pool ranked by competency match, delivered in minutes, not weeks.
