youtestme Company Overview

Danilo Sretenović COO

Adis Dijab CTO YouTestMe is a software development company with headquarters in Toronto, Canada. Our company specializes in delivering secure and complete e-learning solutions, whereas key features include test management, item authoring, advanced reporting, and a security system. Our goal is to continuously develop our platform's capabilities by following and creating new trends in the e-learning industry and always providing systematic yet simple knowledge evaluation. We place the most attention on the data security and protection of our clients. Many government and military organizations, large corporations, and educational institutions are the users of YouTestMe GetCertified, an enterprise solution designed for knowledge examination, training, and certification.

Pacific Northwest NATIONAL LABORATORY

Why Choose Us?

SECURE

YouTestMe GetCertified source code passed US Government verifications and is regularly rescanned to allow regular update packages to its US Government clients.

ON-PREMISE DEPLOYMENT

We are proud to offer you full control over the application and data before, during, and after the examination process. The entire system can be hosted behind the government firewall.

CUSTOM-TAILORED SOLUTION

Start with an off-shelf solution or have it custom designed to your scenario.

High Level of Security

YouTestMe GetCertified source code passed the **US Government verifications** and is regularly rescanned in order to allow sending the regular upgrade packages to its US Government clients. YouTestMe has participated in the risk management process to ensure that our solution complies with the latest security standards created for the information system used in the US Government. YouTestMe can, at any time, provide the necessary documentation, additional information, or assistance to the client's certifying bodies.

6

Simple Procurement Process

YouTestMe can be acquired through several contract vehicles, allowing the government clients to streamline the process of procuring the solution. Our partners are contract holders for:

- GSA Schedule 70
- CIO-CS
- SEWP V
- DHS FirstSource II

On-Premise Deployment

We are proud to offer you full control over the application and data throughout the examination process. YouTestMe fully supports on-premise delivery, which provides government clients with various advantages:

- The entire system can be hosted behind the government firewall
- The client receives a preconfigured plug-and-play system as a predefined virtual machine
- The client gains full control over the system and the data

Custom Packaging & Protected Networks

YouTestMe GetCertified experience is tailored to you and your public institution's needs in every sense, including any specific requirements regarding system configuration. In the past, we have had the requirements to help make our system:

- Functional on JWICS
- Functional on SIPR
- Deliverable as Docker images
