Knowledge Examination Platform

ABOUT US
WHO WE ARE

Fast-growing
& modern
IT company

30
years of tradition

Innovative solutions for
knowledge testing
and **evaluation**

YouTestMe is a Canadian company with headquarters in Toronto aiming to revolutionize the field of knowledge-testing with software for end-to-end secure online examination. It is an operational name of Malloc Inc. – a company with 30 years of experience building and customizing enterprise systems for various Fortune 500 companies.

"YouTestMe brings the inevitable future of education - the sooner you get on board, the better"

Danilo Sretenovic, COO

30

years of experience and we keep improving

Our team specializes in software development and delivering secure, complete IT solutions. We continuously develop our platform's capabilities by following and creating new trends in the e-learning industry and always providing systematic yet simple.

OUR PRODUCTS

GetCertified | **Online Testing Center** | YouTestMe Challenge | Classroom 2020 | Canadian Citizenship Mobile

Introducing The Most Complete **Online Testing Center**

Secure. Online. Remote.

YouTestMe online testing center is a one-stop solution where you can outsource every step of your examination process for a one-time fee, without the need to rent or buy the software.

YouTestMe solutions are trusted by

Government, Military & Public Sector

Corporate Sector

Education Sector

Our technology, delivery method, and security procedures set us apart. Transferring from paper-based solutions to online, **you can benefit** regardless of your industry.

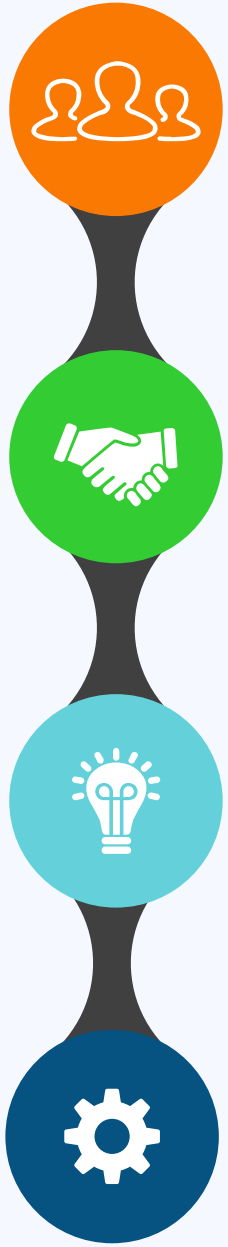
All-in-One Solution for

Government, Military & Public Sector

YouTestMe is a personalized, highly scalable, and reliable software with a distributed database configuration that can meet any government's needs.

It represents a solution for compliance **training and testing** of employees.

The examination process is **highly secured** to ensure the integrity of **government certifications**.



Unlimited number of active users

Compliant with U.S. government standards

Able to **adjust to any scenario**

Work behind a government firewall

youtestme

Trusted by two U.S. Government Agencies

If you are seeking solutions for

Corporate Sector

YouTestMe, superior IT solutions, ensures you more effective HR by organizing **training courses with engaging content** for onboarding and employee certification.

We provide you seamless data syncing with the existing enterprise environment and opportunity for full branding through white labeling.

Our mission

We strive to provide the solutions for:

Every problem

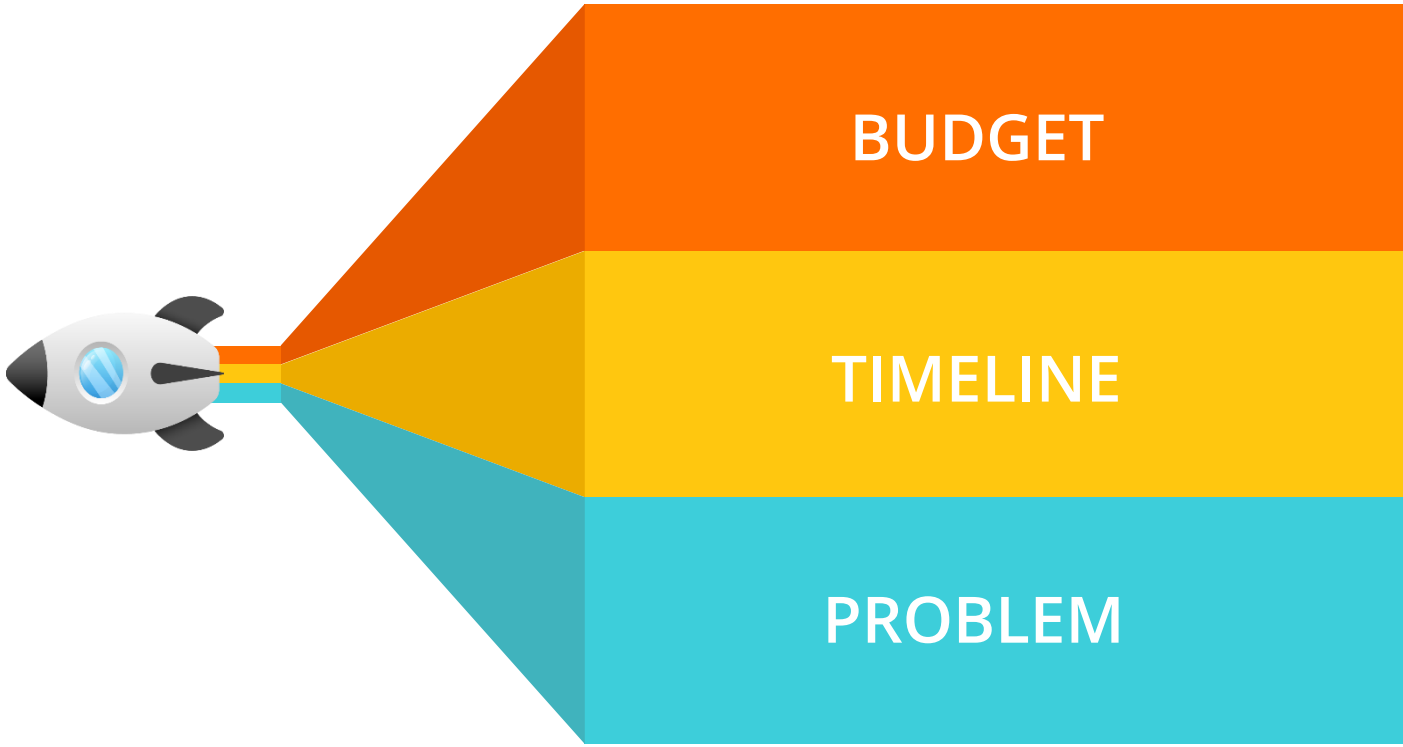
- Customizing the system to fit your business model
- Adding new functionalities and features as needed
- Scaling the system capacity if required

Every budget

- Start with a standard package and upgrade later
- Custom pricing options
- Discounts on low-volume testing

Every timeline

- Get the system up and running where and when you need it
- A streamlined transition from other systems



Share your needs and budget with us and we will tailor the best solution for you!

youtestme

Why is GetCertified for Governments?

- Full control with “on-premise” deployment
- Data security
- Data privacy
- Hosting possibilities – anywhere in the World

- Hosted on

GDPR **FedRAMP** compliant servers

- Hosted behind the government firewall
- Application code has passed U.S. government verifications
- Private virtual networks on Microsoft Azure Server

- Hosted on solutions that are certified by

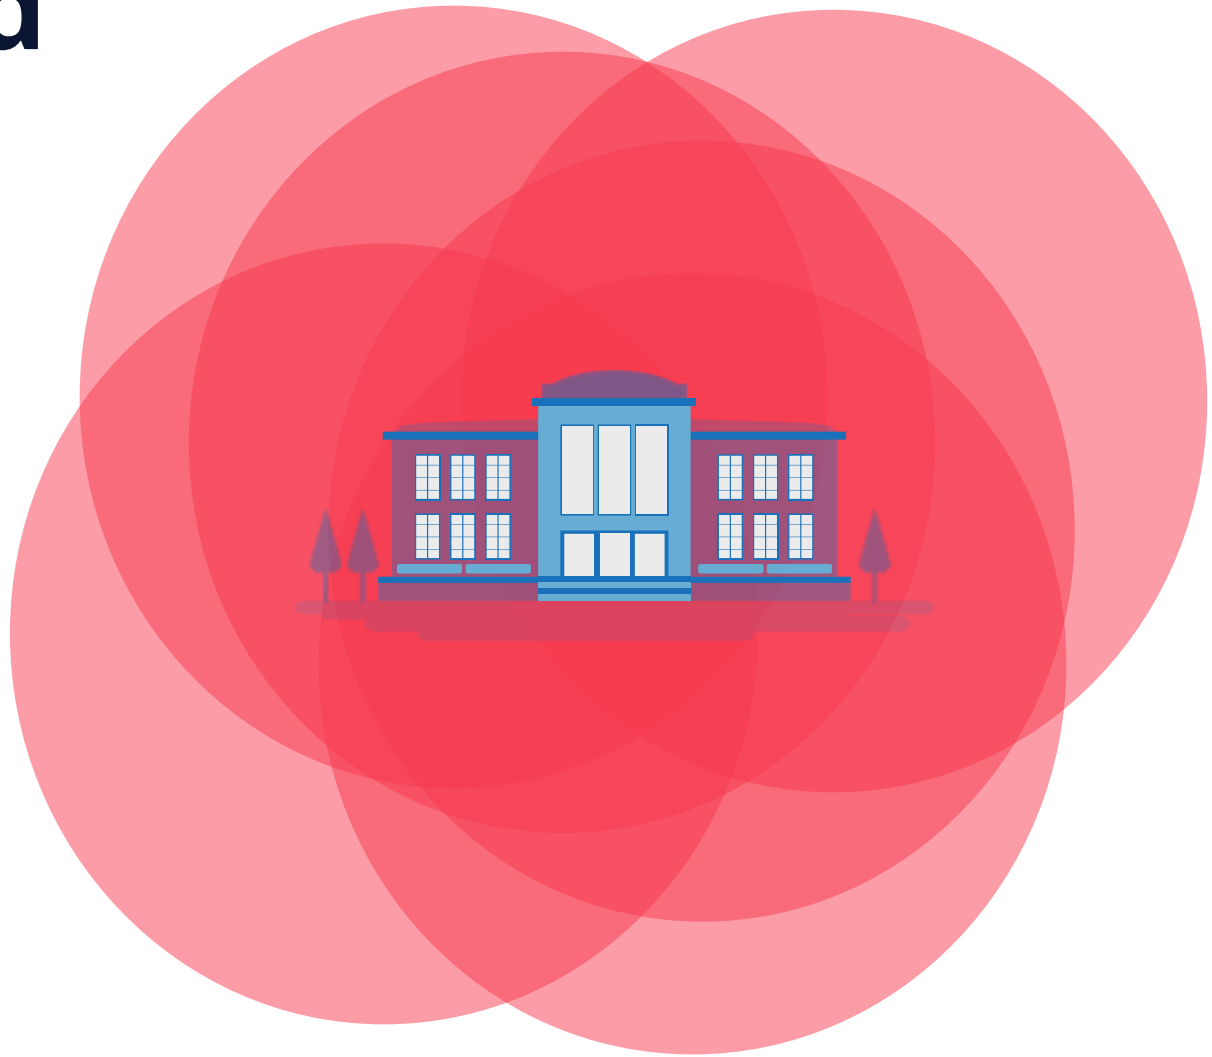
DCI PSS **HIPAA** **SOC I-II type 2**

Why is GetCertified for Corporations?

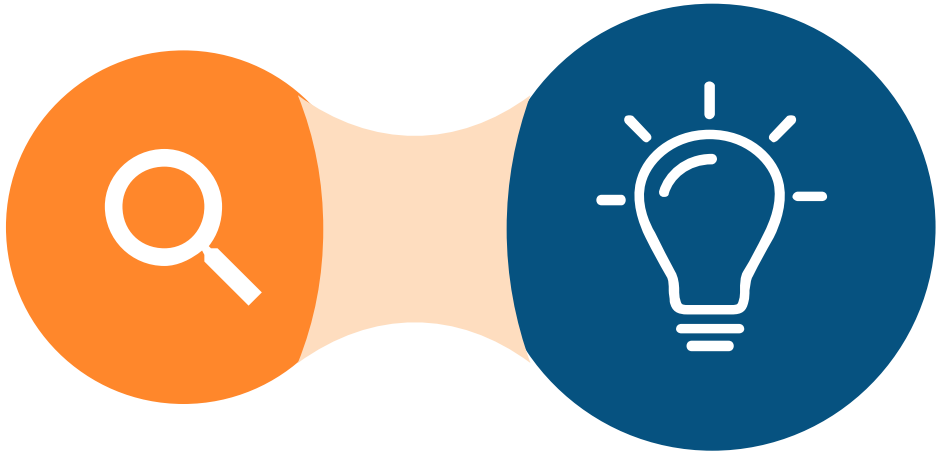
- Coordination with Testing Centers
- Integration with other systems
- Suitable for various business case scenarios
- Hosted on GDRP compliant server

Why is GetCertified for Educational Institutions?

- Student organization in classes and courses
- The option of paper-based tests
- Integration with LMS systems



youtestme



Solving Typical Testing Process Problems

Testing centers	→	**Secure remote testing**
Traditional classroom setting	→	**Remote learning with interactive content**
Test integrity	→	**Various cheating prevention mechanisms**
Test administration	→	**Automated activities and simple workflows**
Complementing systems	→	**Integrations via API, web services, and flat files**
Legacy systems	→	**Data import, OMR scanners, and customer support**

Architecture

STARTER EDITION

- Test generator
- Advanced user organization
- Grading scale
- E-testing center
- Training courses

Environment Separation

Application Environments

Production

Use your official application to conduct candidates training and examination

UAT

Test any feature, module, or setting before implementing it into the Production environment

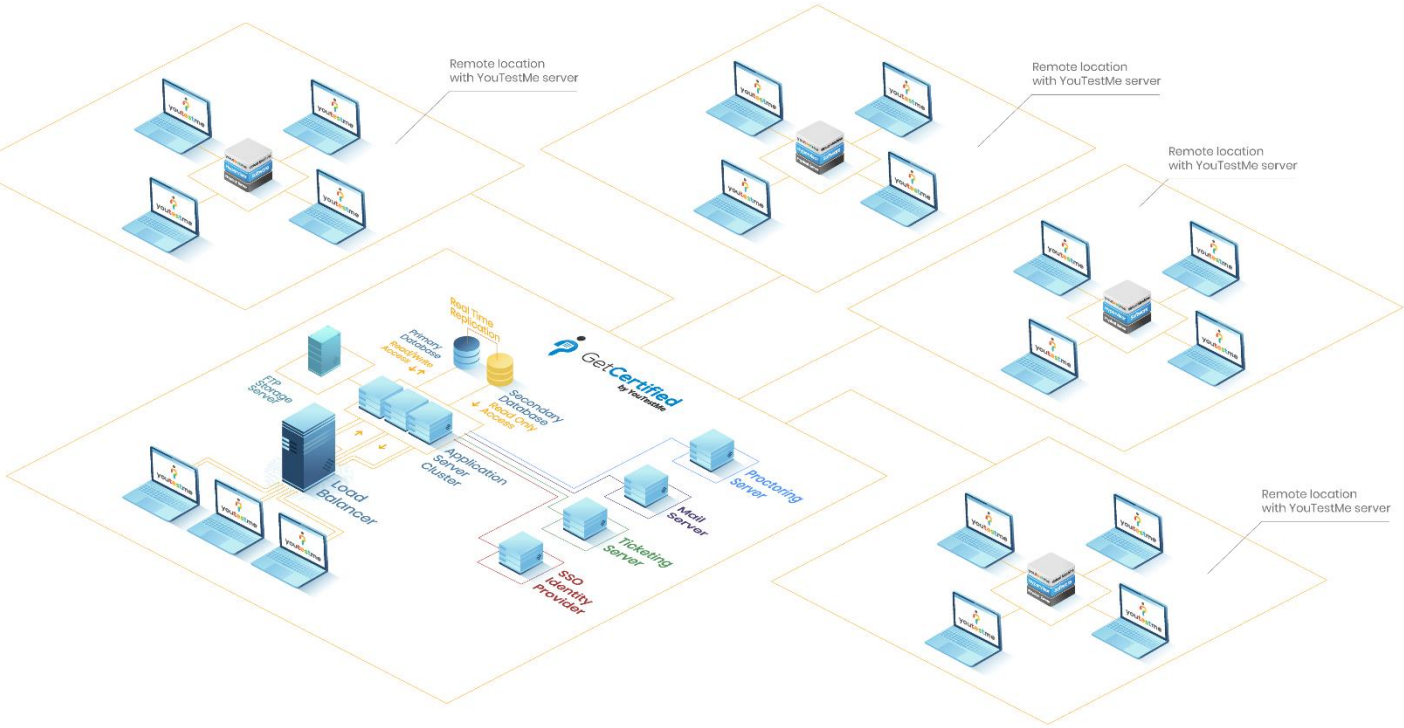
Training

An instance for training, experimenting and exploring the application

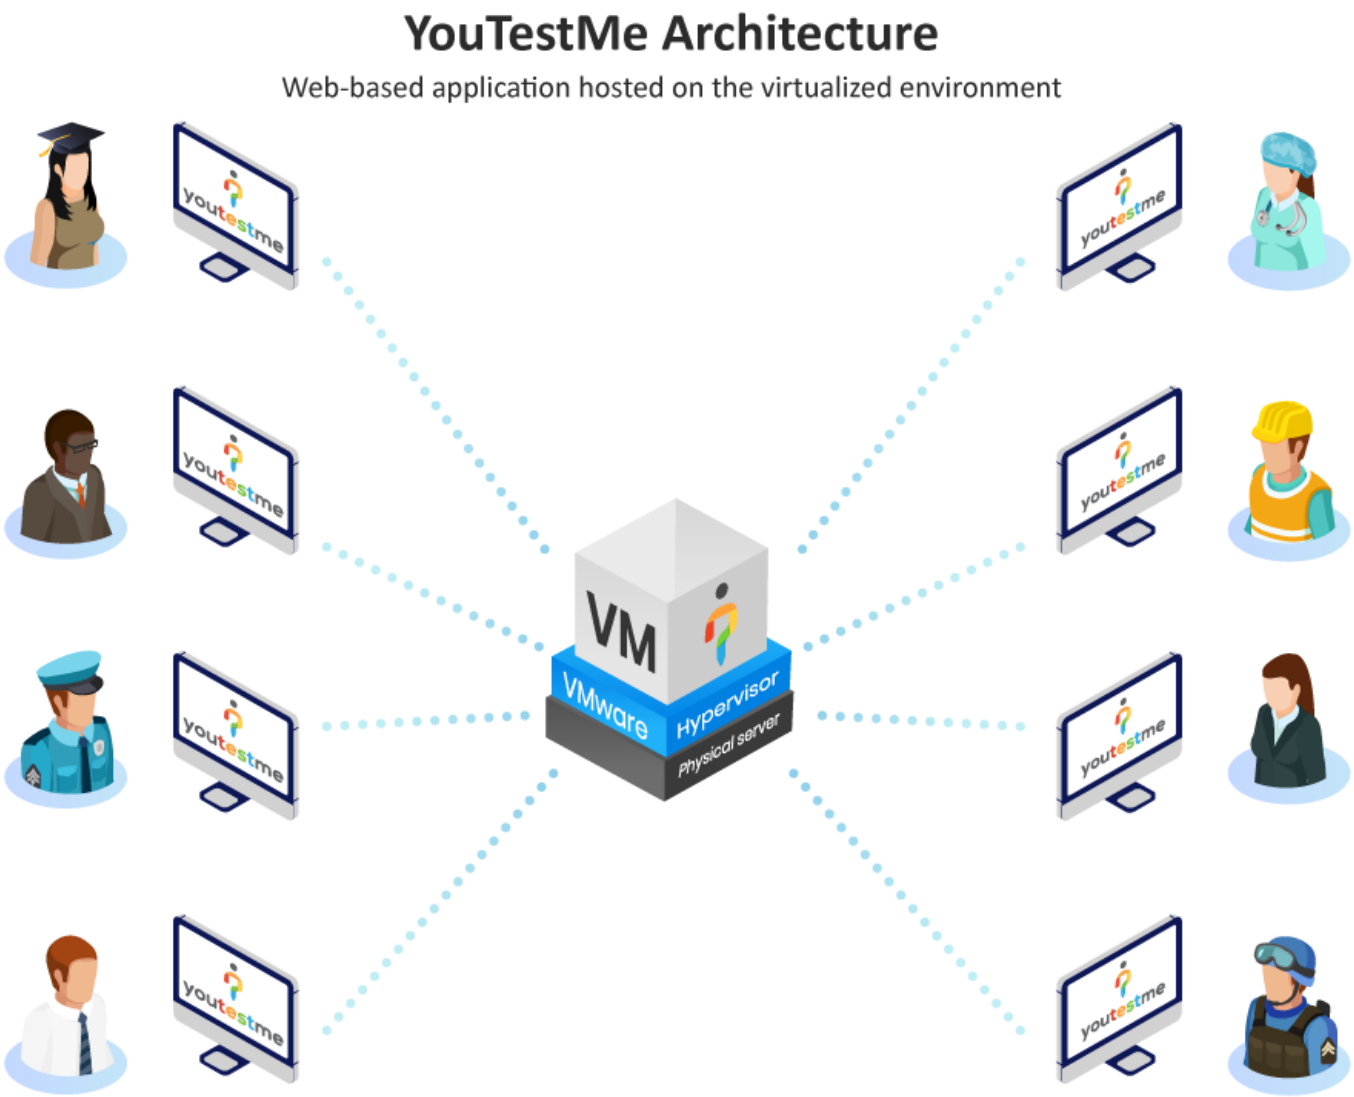
Architecture

Distributed Systems

- Highly scalable distributed systems designed to handle very large loads reliably
- Pre-configured virtual machines
- Minimal effort for administration and maintenance



Architecture



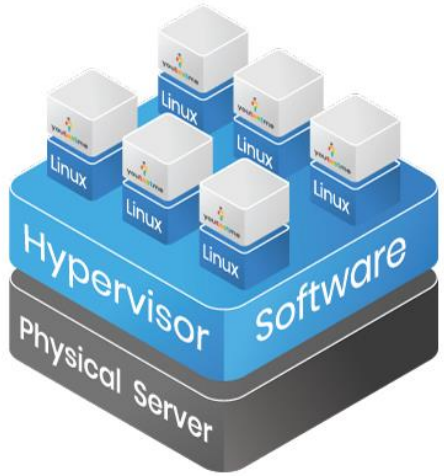
youtestme

Virtualization

- **Server virtualization** allows different operating systems to run separate applications on one server while still using the same physical resources.

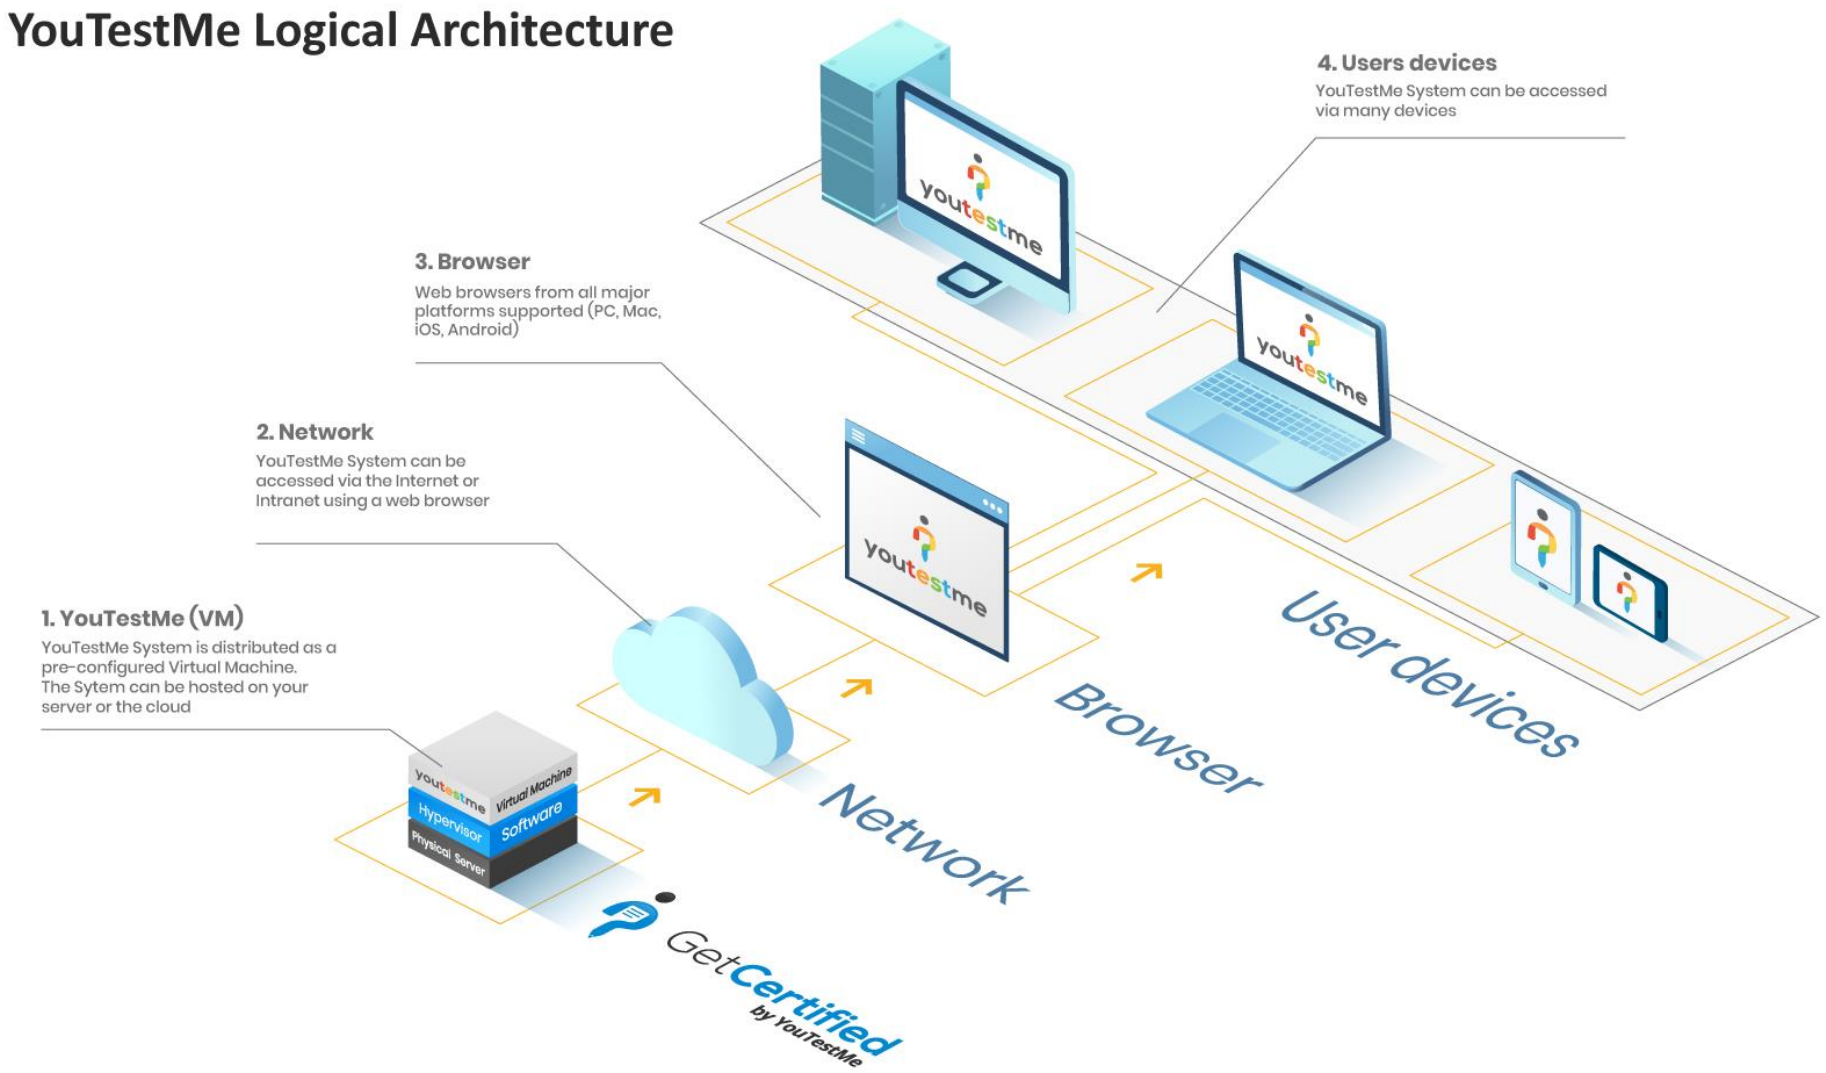
- **Hypervisor**, a virtual machine monitor (VMM), creates and runs virtual machines (VMs). This software allows one host computer to support multiple guest VMs by virtually sharing its resources, such as memory and processing.

YouTestMe Distribution



Virtual Architecture

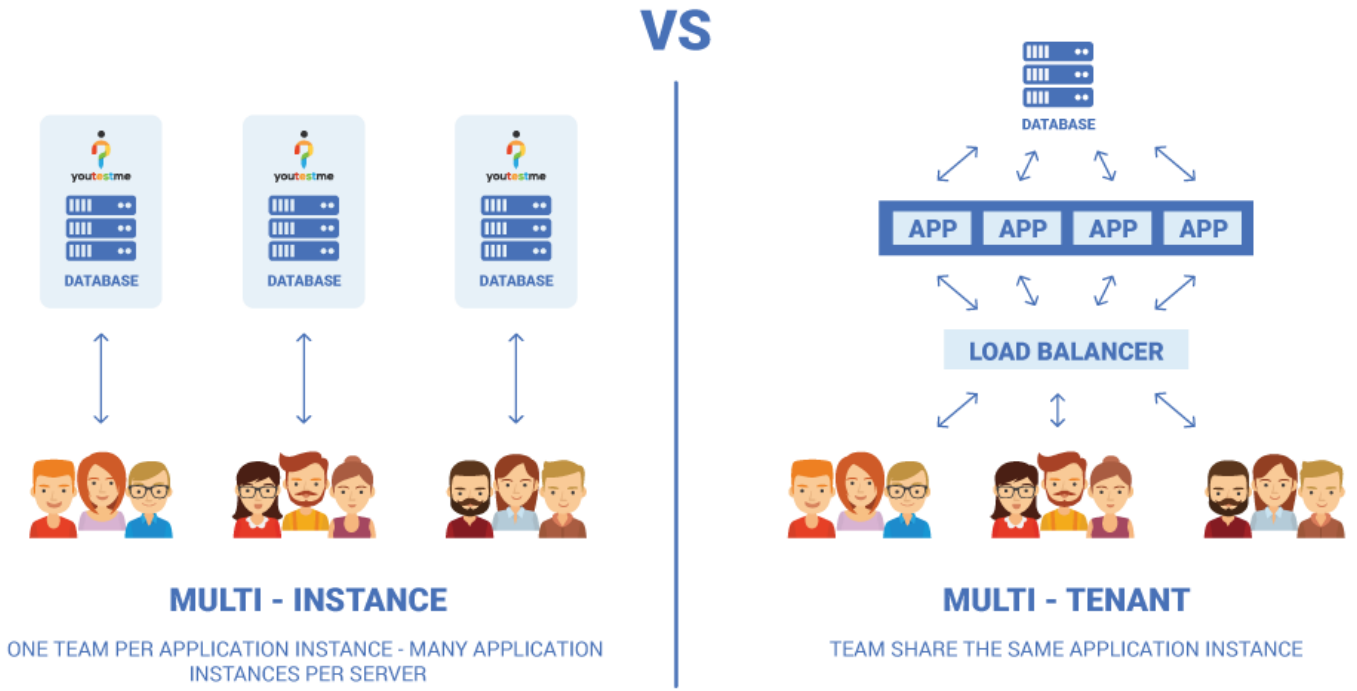
Architecture



Architecture

Multi-Instance Architecture

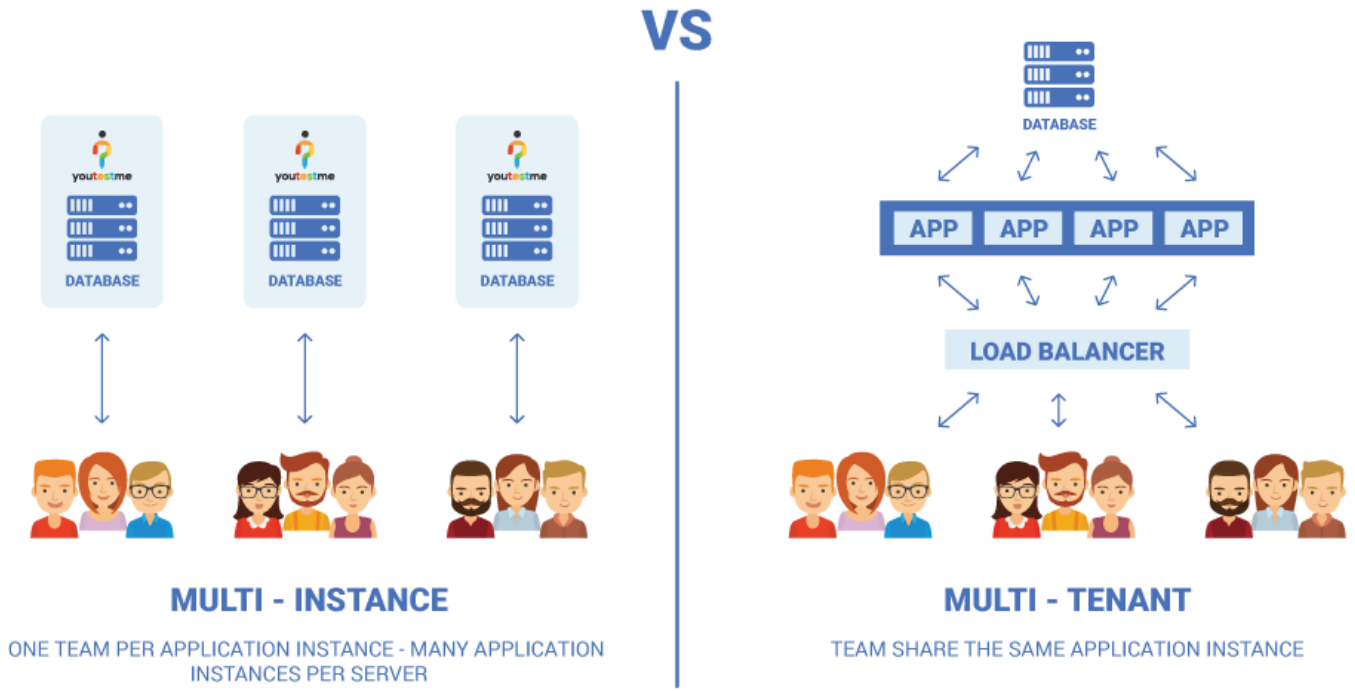
- Data isolation and security: each client has a separate database
- High Scalability: an unlimited capacity
- High Availability: multiple application instances
- Clients' application can be easily migrated to another platform
- Maximum flexibility and control of configuration and customization options



YouTestMe Workspaces

Architecture

- Perfect for large organizations and test vendors
- Allows each department or institution to have its own platform, with specific branding, user roles, and tests
- Based on user roles, one can supervise all departments, manage just one test, and everything in between
- All the benefits of various testing platforms in one software

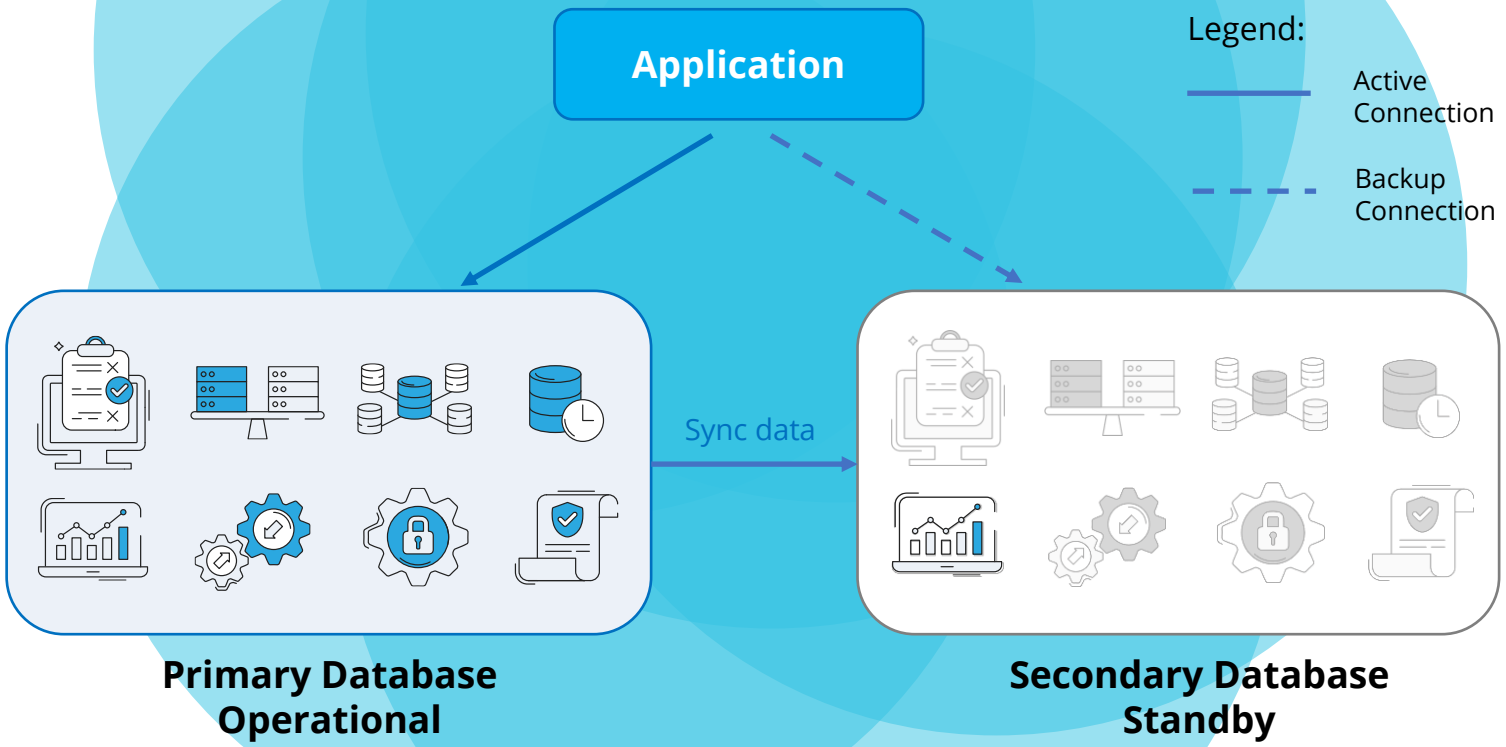


youtestme

Architecture

Enterprise Edition

Secondary Database



- Uninterrupted testing process
- Data balancing – relieving load on the primary database
- High availability and redundancy
- Daily backups – real-time replication of data
- Reporting processes
- Seamless integration with external systems
- Preserving primary database security and performance
- Secure and direct access to data analysis and system support

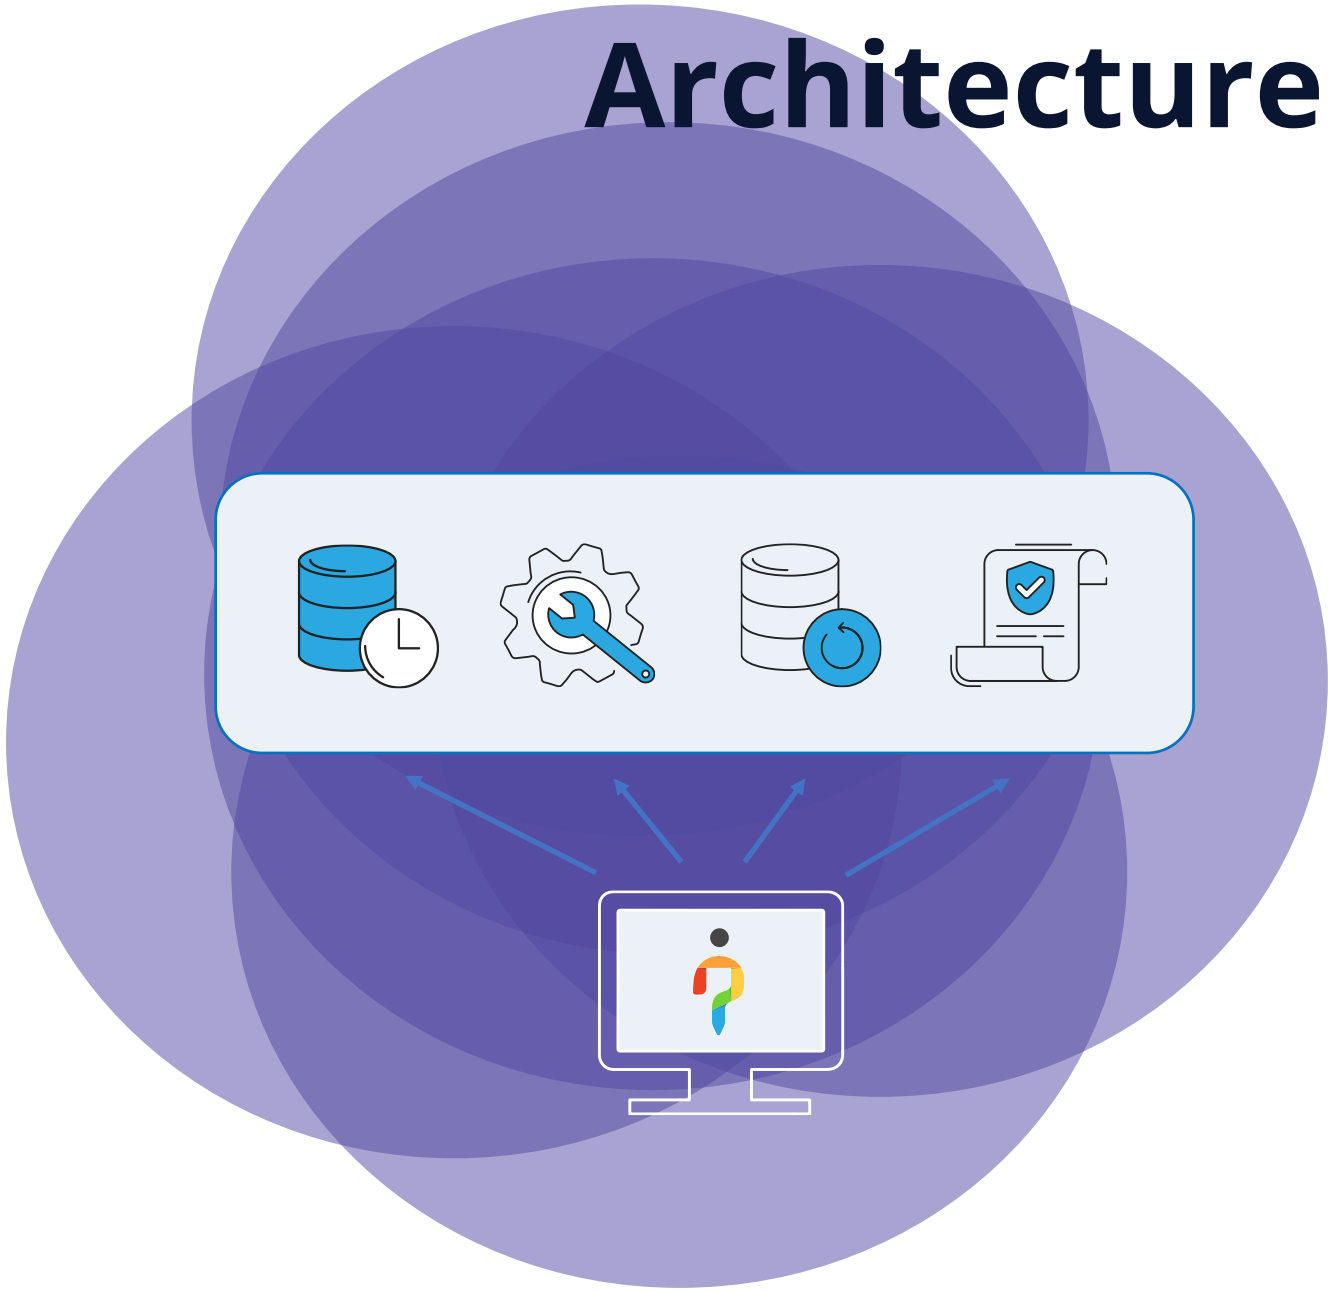
youtestme

Architecture

Enterprise Edition

Fast Disaster Recovery

- High availability
- Fastest possible system restore in case of disaster recovery
- Maintain business continuity after an unexpected event
- Real-time data replication to backup database



Architecture

Recovery Time

The time needed for restoring data, infrastructure, and services in case of a disaster scenario

Disaster recovery time for the **Enterprise Edition**

Disaster recovery time for the **Standard Edition**

All-in-one Solution

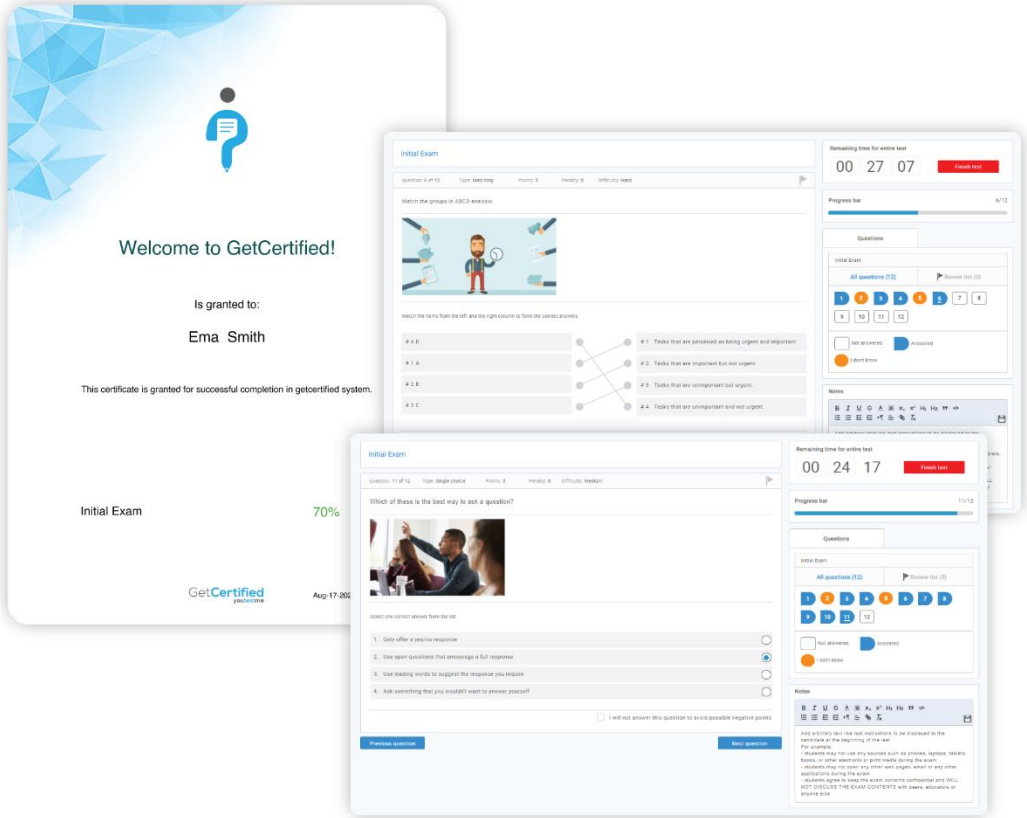
- Training courses
- Tests
- Surveys
- Customizable interface and features
- Integrations with other systems
- Simple data load, conversion, and storing
- Complete onboarding process
- Continuous support
- UAT and training environment
- Services for high stake examination

youtestme

Application

Ease of Use

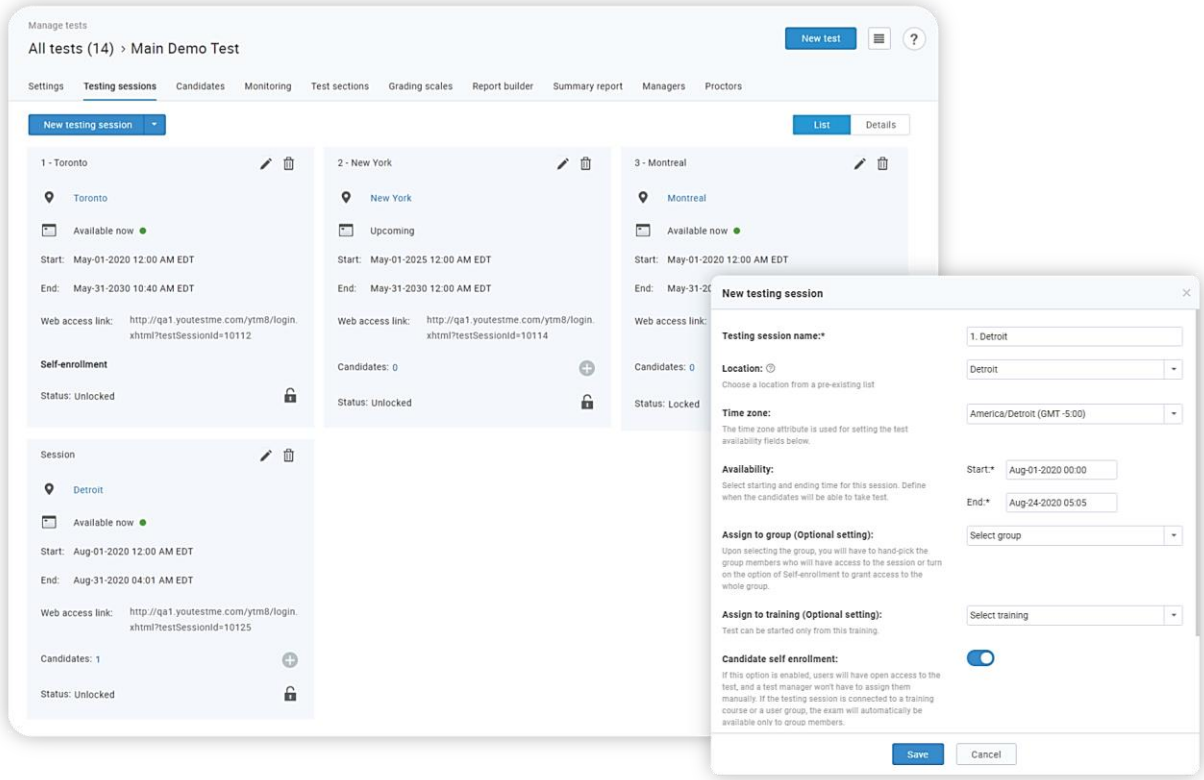
- Flexible platform easily adaptable to any use case
- Minimum number of steps for achieving the goal
- Frequently used tests and custom reports can be saved as templates for future use
- Visually appealing
- Accessible from any device
- Smooth performance
- Help center and personal assistance always available to users



Application

Efficient Examination

- Testing sessions – pause, prohibit, allow, or suspend test attempts
- Testing locations – create tests for different user groups at different places
- Test generator – ultimate creator of unlimited test versions with randomization options
- Question pools/banks
- Question grouping – shared media and text
- Test templates – standardization of exam settings

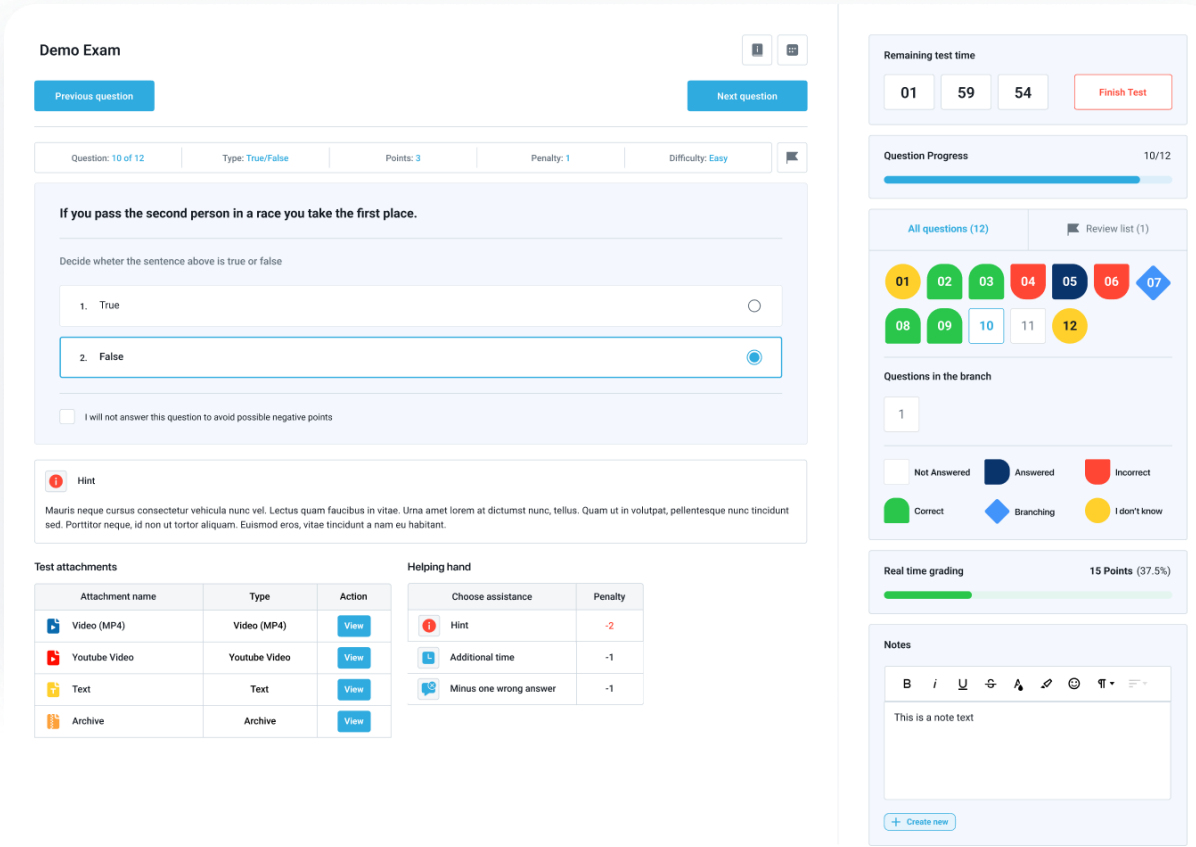


Testing sessions

Application

Test Management

- Add notes and attachments to questions and tests
- Personalized branding for each test with the ability to upload a unique logo
- Enable a scientific calculator for test-taking
- Partially grade questions
- Create question categories
- Grading by custom question properties
- Multiple test and question versions
- Create custom certificate templates



youtestme

Advanced

User Roles

- Student
- Guest
- Question pool manager
- Proctor
- Instructor
- Administrator
- CSR
- Institution admin
- Grader
- Content manager
- Analyist

Student

The role is intended for:

- Taking tests
- Attending training courses
- Participating in surveys

Guest

Session-level access to the application. After the session expires or you sign out, your profile will be deleted from the system.

Question pool manager

Intended for creating different types of questions and organizing them within new or existing question pools.

Administrator

Intended for:

- Overseeing the entire system
- Configuring system settings
- Examining reports

CSR

Intended for managing users' profiles and information, managing tests, surveys, and training courses, managing common sessions, and creating accommodations for candidates.

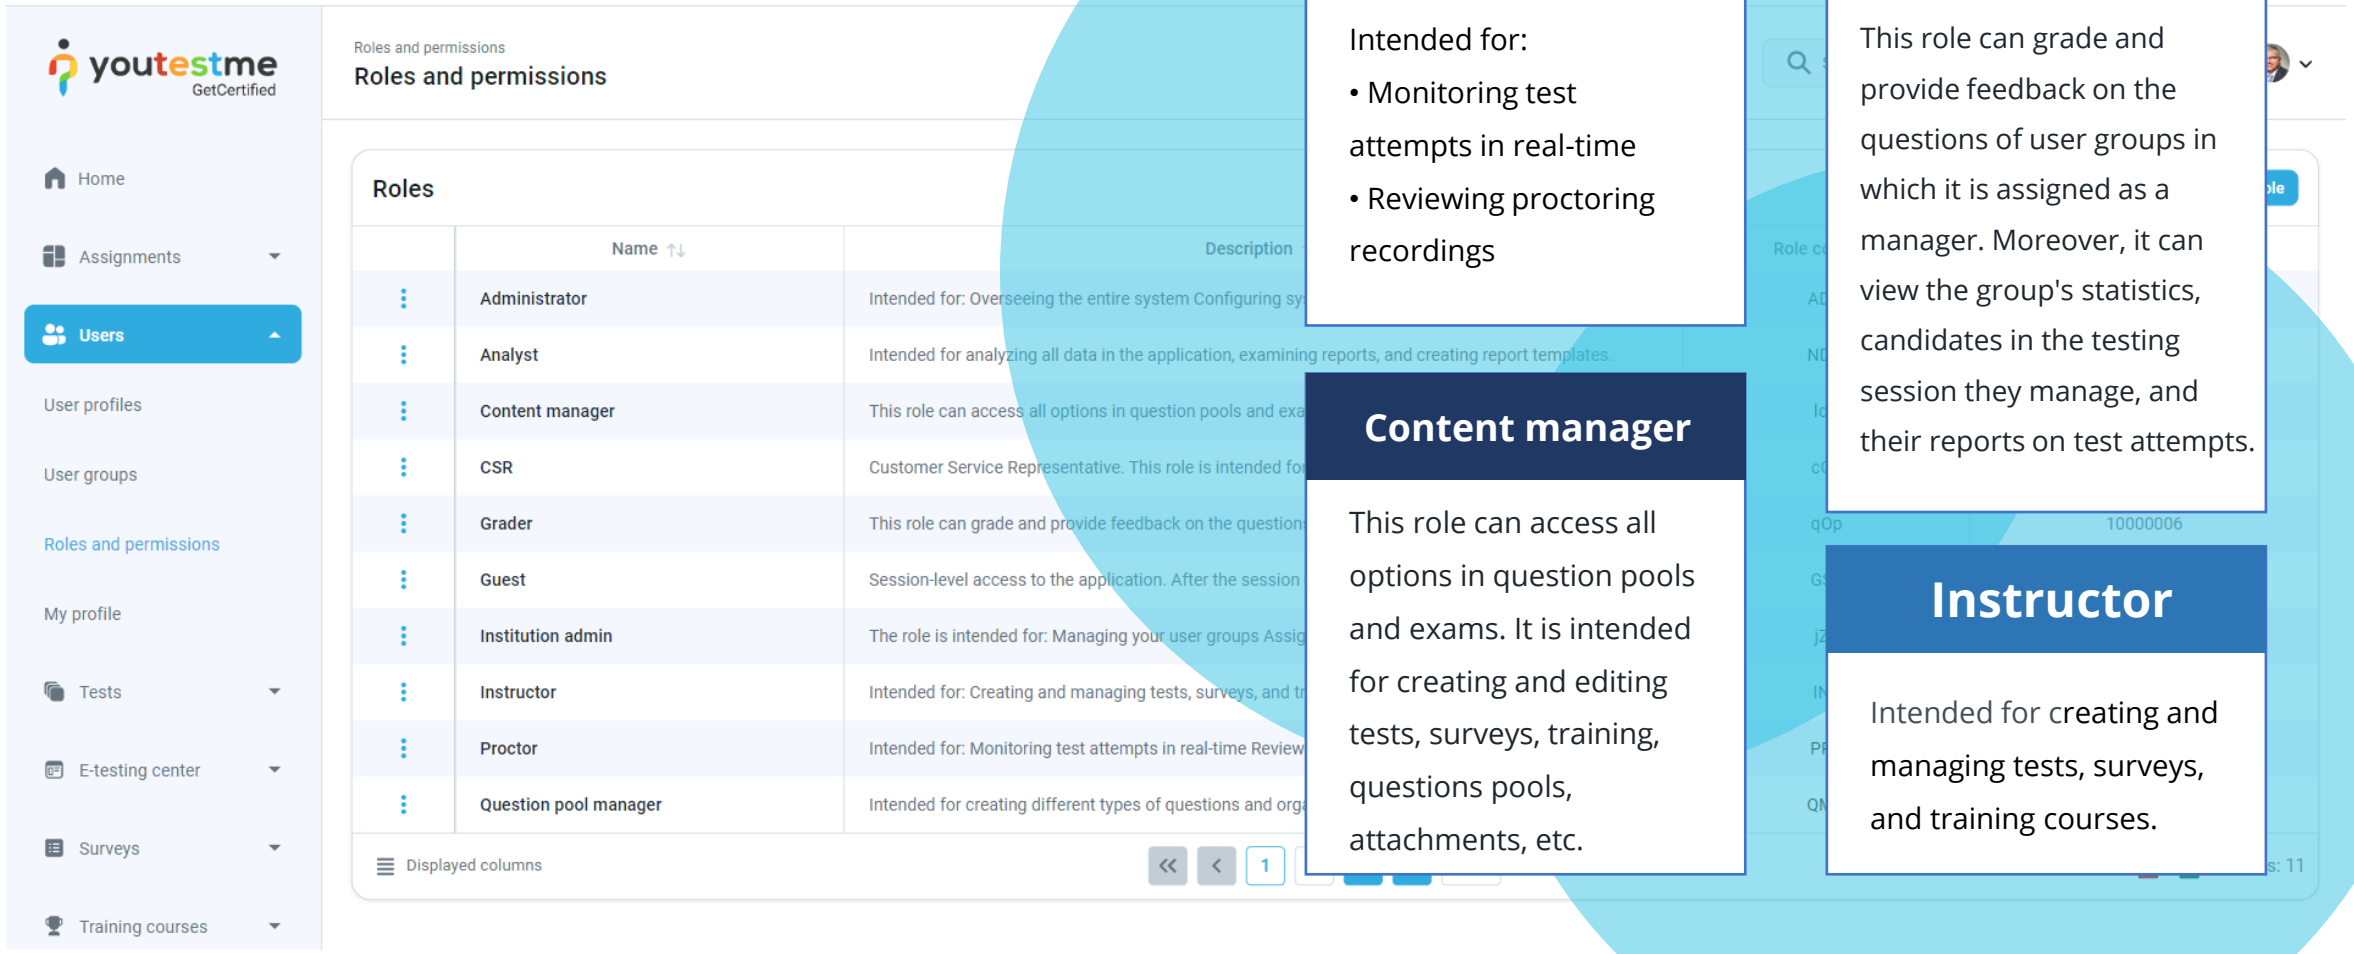
Institution Admin

The role is intended for:

- Managing your user groups
- Assigning students as group members
- Assigning students as test candidates
- Examining the reports related to your user group

youtestme

Advanced
User Roles



Proctor

Intended for:

- Monitoring test attempts in real-time
- Reviewing proctoring recordings

Grader

This role can grade and provide feedback on the questions of user groups in which it is assigned as a manager. Moreover, it can view the group's statistics, candidates in the testing session they manage, and their reports on test attempts.

Content manager

This role can access all options in question pools and exams. It is intended for creating and editing tests, surveys, training, questions pools, attachments, etc.

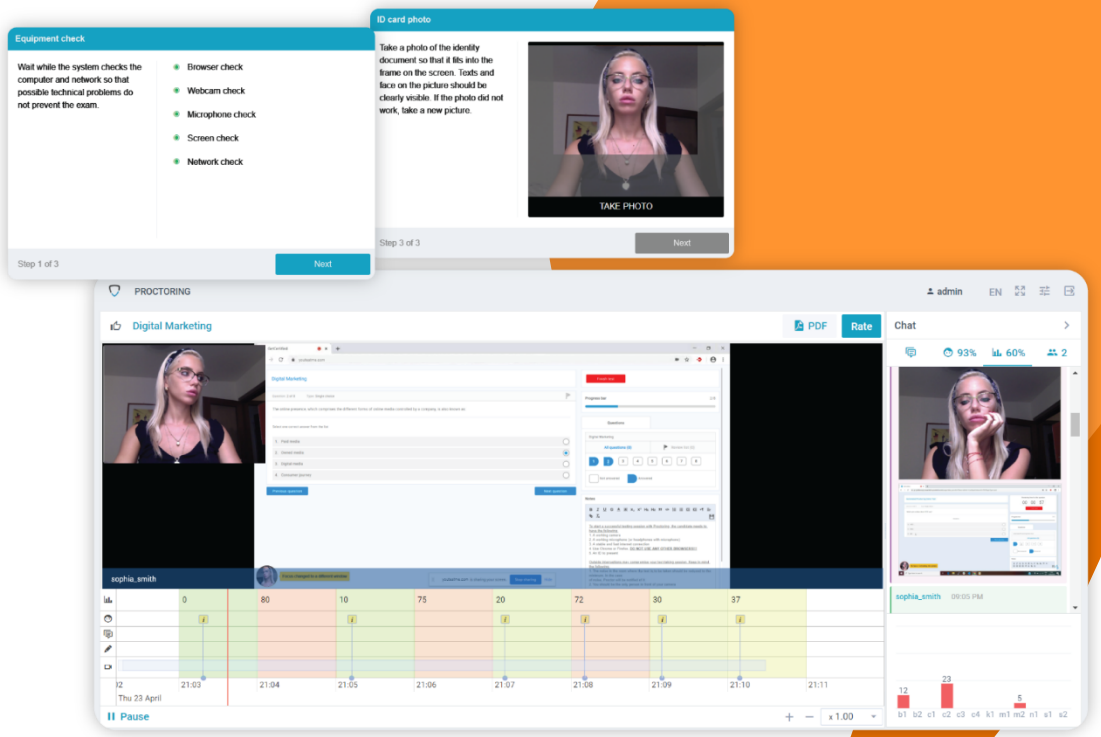
Instructor

Intended for creating and managing tests, surveys, and training courses.

Cheating Prevention Mechanisms

- Browser lockdown – prevents cutting, saving or printing anything from the screen
- Live monitoring – detailed preview of the candidates' test progress and results
- Test, question, and answer generator
- Question and answer randomization
- Branching questions
- Automated and Live Proctoring, or Proctoring using Conference Tools (Webex, Google Meet, Zoom, etc.)
- Record and review
- Automatic lock of the screen in case of a violation
- Request document update after test

Application



Automated Proctoring

Automated and Live Proctoring

Application

Automated proctoring system:

- Monitors the test attempt using behavioral trackers
- Records the entire process and archives videos
- Generates a credibility report
- Standalone proctoring equipment check

The live proctoring system involves certified proctors who:

- Supervises the exam in real-time
- Rules out cheating behavior personally
- Uses an automated proctoring system as an additional security layer: behavioral trackers, video recording, and reports generating
- Requires candidates to connect an additional mobile camera for the view of 360°

Proctoring Solution

youtestme

Live Proctoring using Conference Tools

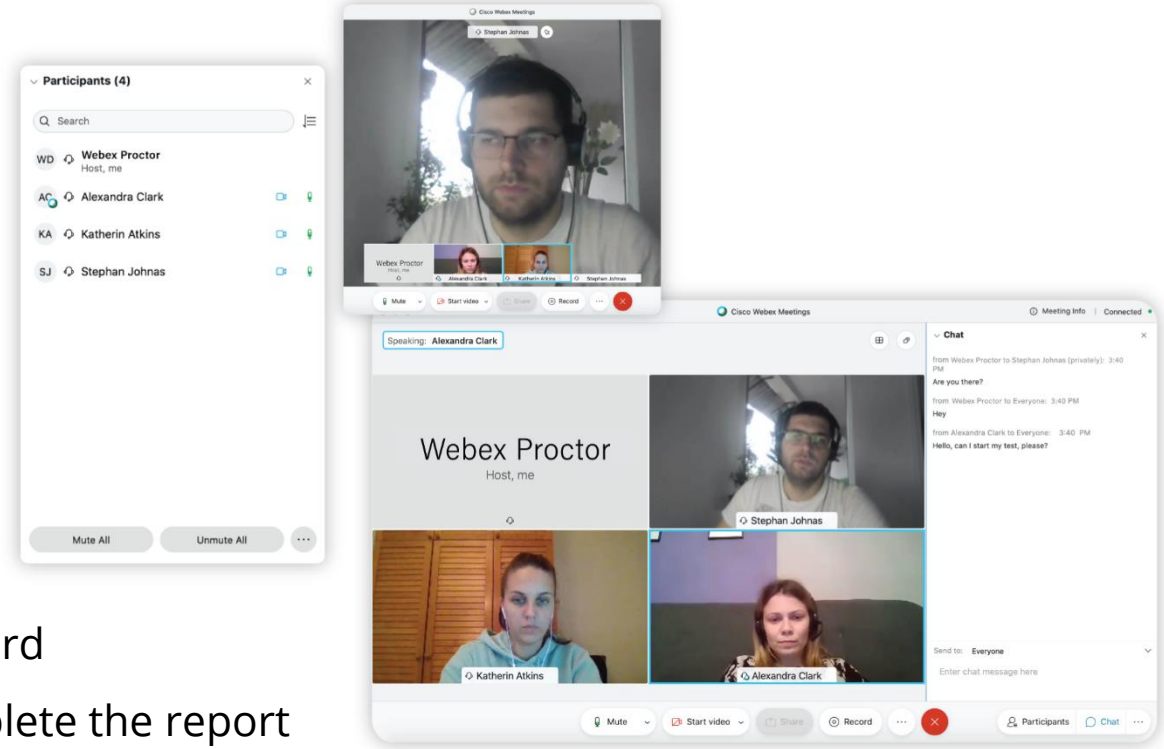
Application

About Cisco Webex:

- Leading enterprise solution for video conferencing
- Industry standard in business collaboration
- A solution free of charge

How to use it with YouTestMe:

- Organize a Webex meeting for your testing session
- Connect with your candidates at the appointed time
- Monitor the test taking and mark suspicious behavior in a predefined Excel sheet
- Record and review the test taking through Webex dashboard
- Upload the results into the YouTestMe application to complete the report



youtestme

Automated Proctoring with Proctorio

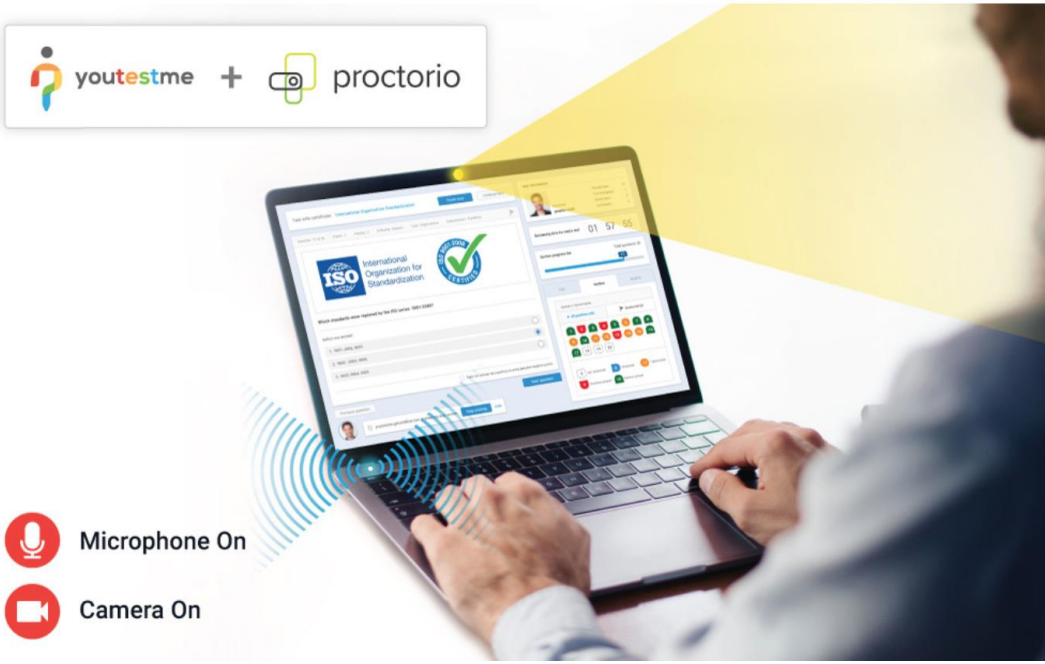
Application

About Proctorio:

- Leading solution for automated proctoring
- Advanced video and audio analytics; automatically creating reports
- Trusted by over 400 organizations worldwide:
  Amazon, Boston College, Mayo Clinic, etc.

How to use it with YouTestMe:

- Proctorio integrates seamlessly with YouTestMe GetCertified:
  no schedule, no additional sign-in, no wait
- Monitors the test-takes with advanced machine learning and facial detection technology
- Always available without an appointment

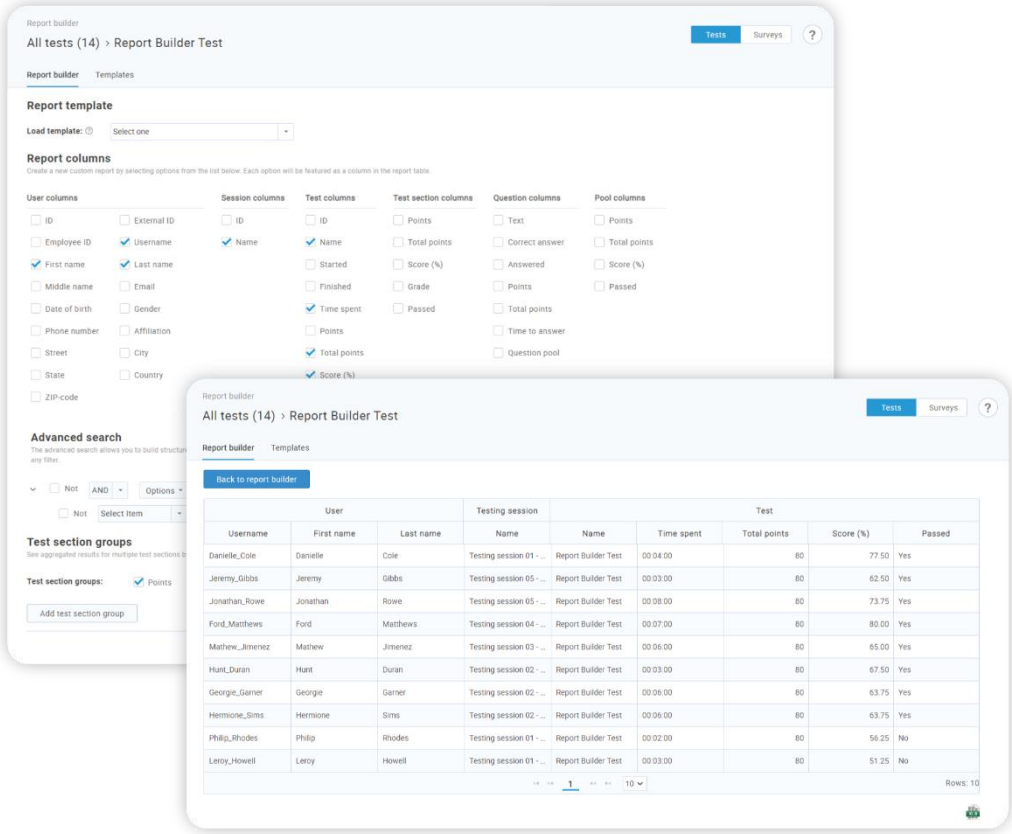


youtestme

Robust Reporting Module

Application

- Designed to provide a feature-rich, user-friendly interface for managing reports
- Over 40 types of predefined reports
- Advanced analytics that includes results processing broken down by user groups or testing locations, test analysis, and item reliability
- Report builder – easily create and customize unique reports
- Scheduled reports – automated solution for delivering reports by email at specified times
- Multiple Graders module enables assigning multiple graders to mark the candidate's attempt
- Most used reports are knowledge deficiency report, test pass rate, achieved certificates, and item reliability analysis.



Report builder

Application

Integrated Ticketing System

- Organize questions and answers about the application in one place
- Quickly act on any issue your users raised by application users
- Export the list of questions and send it to YouTestMe customer support
- Assign status and priority to every ticket
- Based on Bugzilla software
- The essential feature for institutions with a large number of users

youtestme

Unlimited test library

Access our ever-expanding collection of industry-specific test packages and stay up-to-date with the latest trends and developments in your field.

- Avoids repetition of questions
- Improves test accuracy
- Saves time and effort for trainers and educators
- Scalable for different industries
- Enhances learning experience

youtestme

Unique features

youtestme

Worldwide Data Centers

Our worldwide data centers provide seamless access to our powerful testing software from anywhere in the world.

- ✓ **Conduct unlimited tests from anywhere in the world**
- ✓ **Remote access to a network of servers in different regions**
- ✓ **High availability and reliability for uninterrupted testing**
- ✓ **Scalable testing solutions to cater to unlimited volumes**

Application

System Notifications

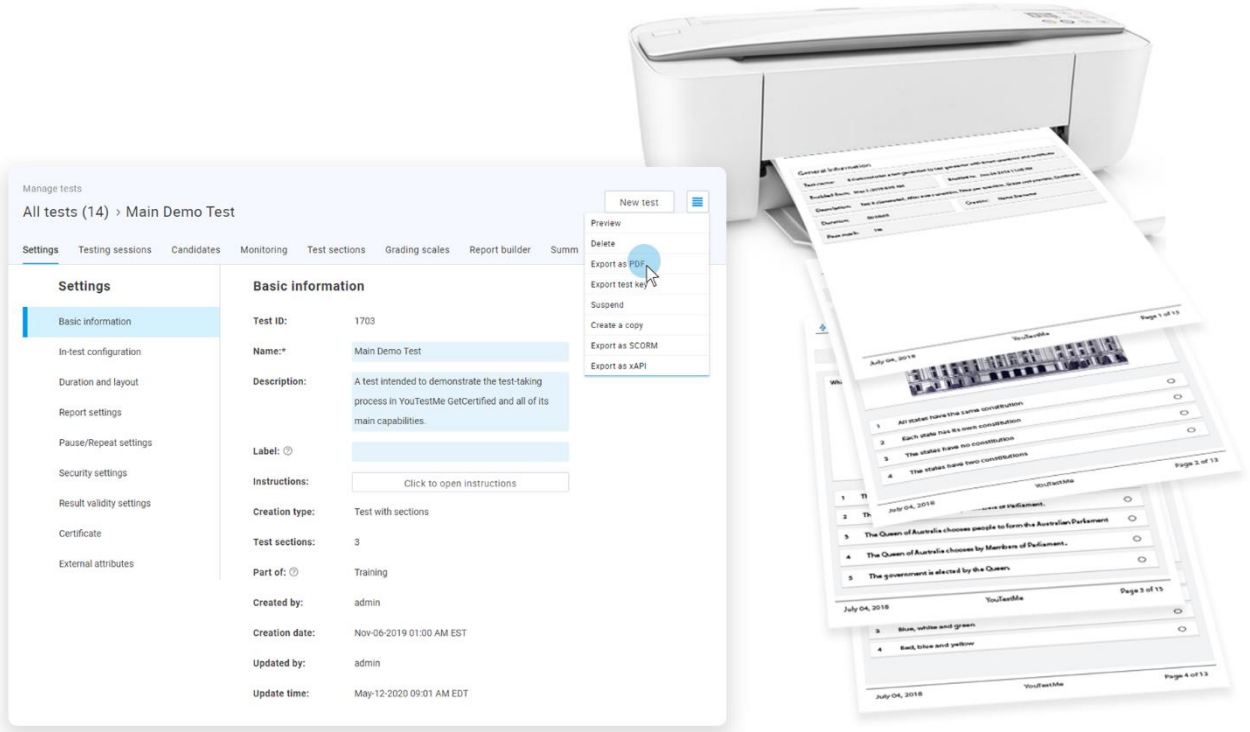
Allow system administrators to identify critical errors by receiving email notifications from the YouTestMe application

- Low disk space
- Application server low on memory
- Application server did not start at system boot
- Database backup failed
- Too many hanging sessions in the database
- Many more

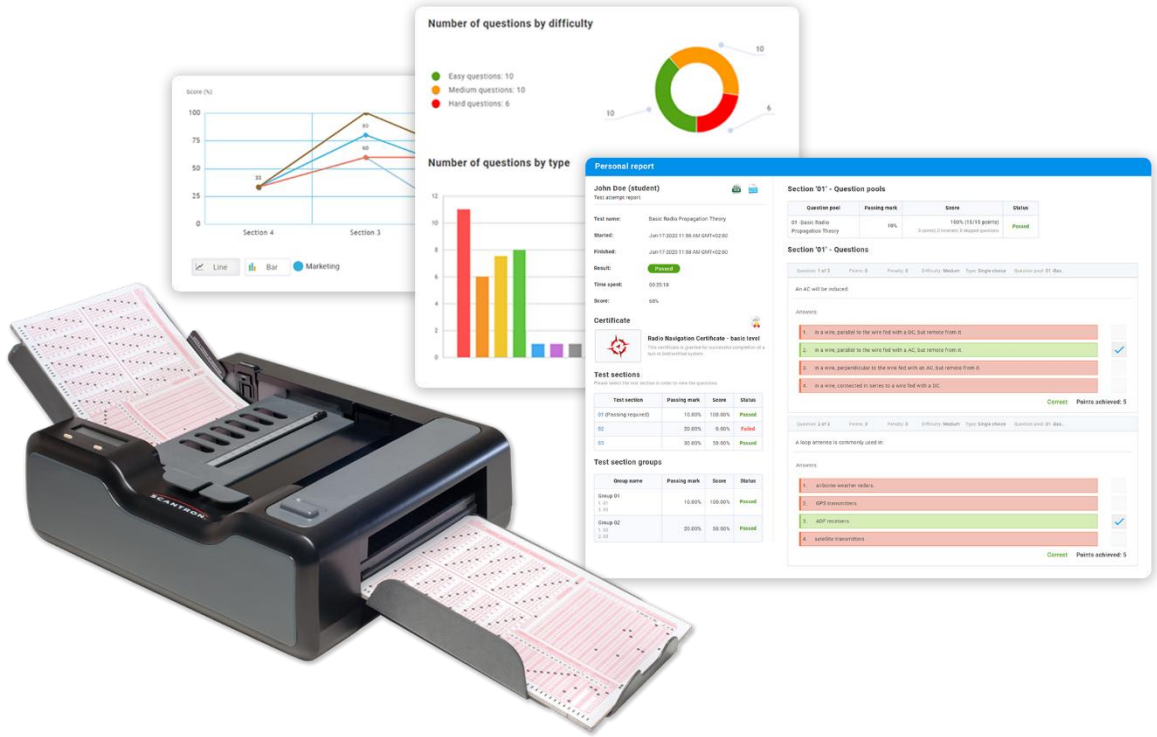
Application

Paper-based Tests

- Seamless transition
- Exported tests with bubble sheets
- Importing test results using an OMR scanner
- Supported major standards – Scantron, QTI



Scantron- Automatic Import of Paper-based Test Results

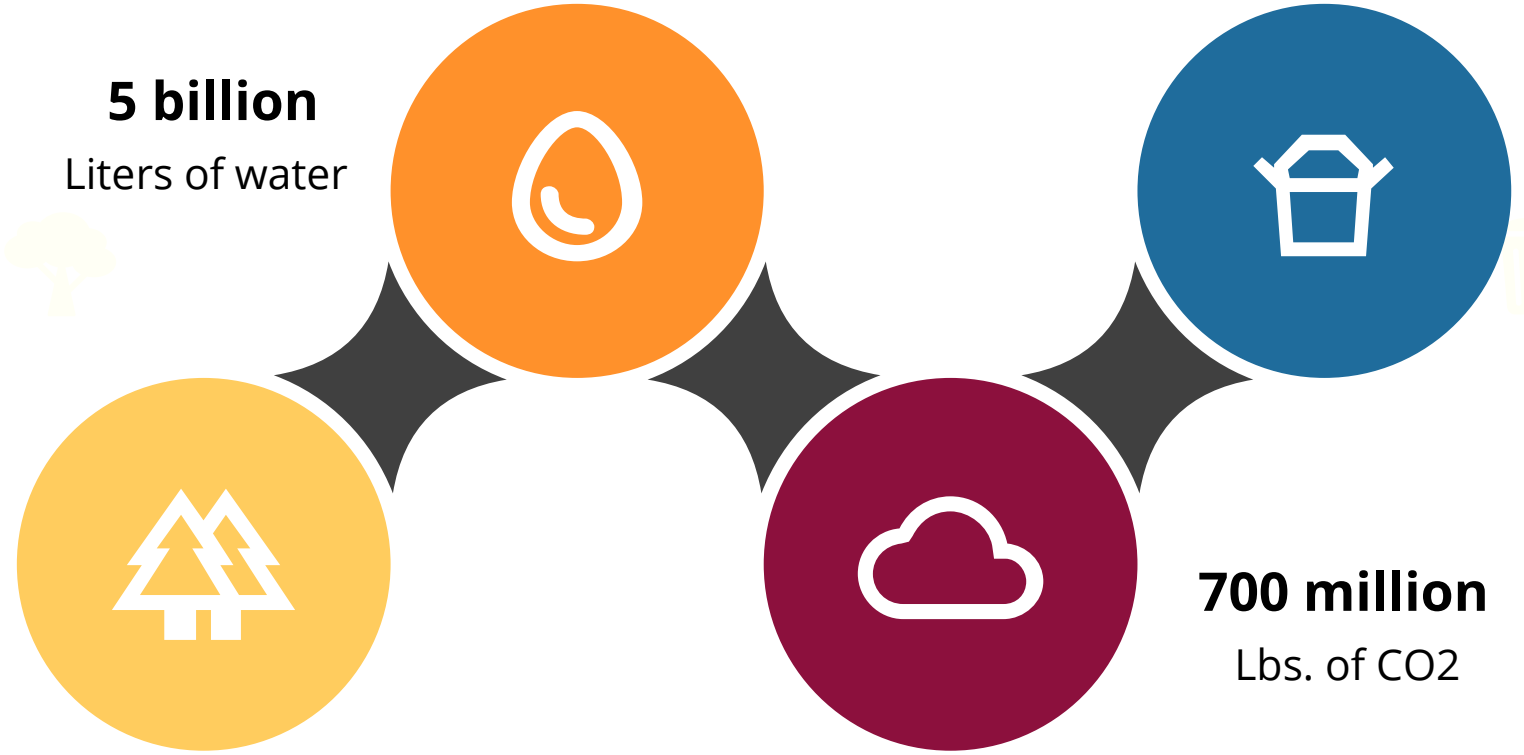


Allow your candidates to take tests on paper at any location and then import results back to the system without any data loss. YouTestMe now fully supports Scantron bubble sheet scanning outputs, which is the most used standard for collecting printed test results.

- Generate unique test versions for each candidate
- Export papers and distribute them to candidates
- Scan bubble sheets with the Scantron scanner and import results into YouTestMe GetCertfied
- Examine reports in YouTestMe GetCertified

Eco-friendly Solution

By using youtestme GetCertified you can help save



5 billion
Liters of water

70 million
Lbs. of waste

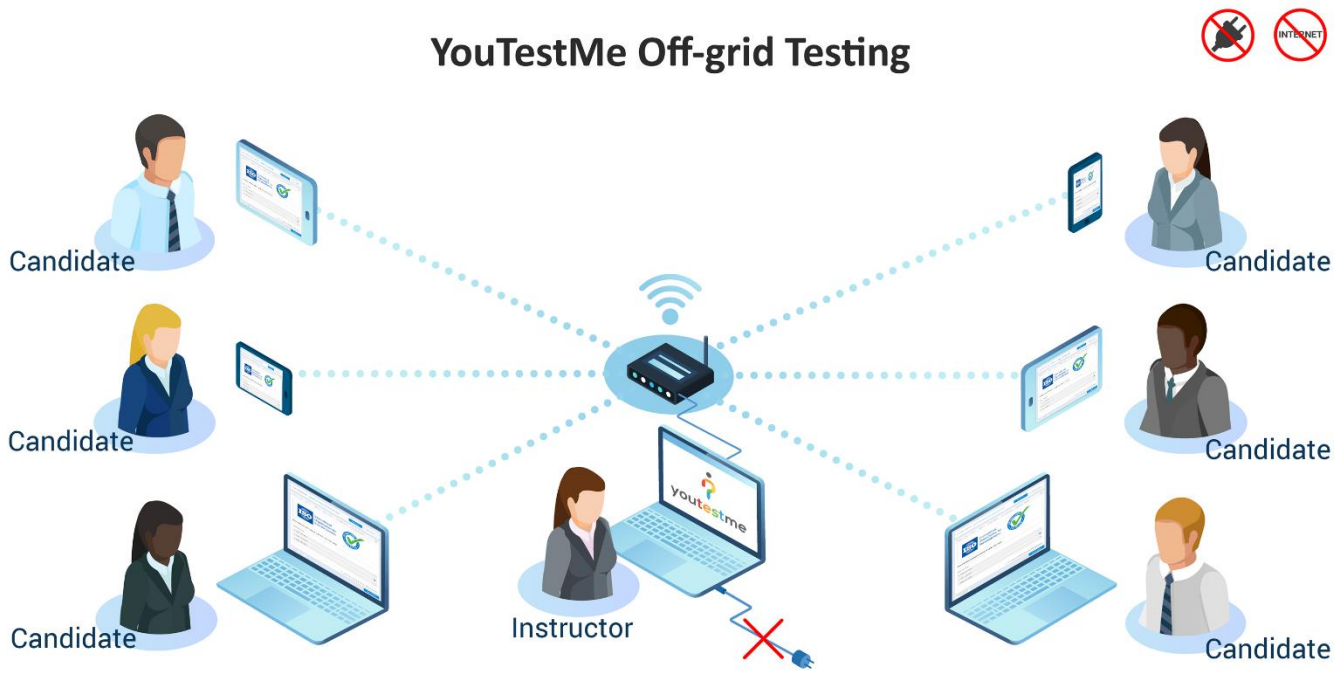
100 million
Lbs. of wood

700 million
Lbs. of CO2

Application

Off-the-grid Testing

- Conduct testing at remote locations
- No need for internet connection, wired LAN
- The entire system can be battery operated using laptops and tablets
- Data synchronization using a network connection or file exchange



E-Testing Center

Application

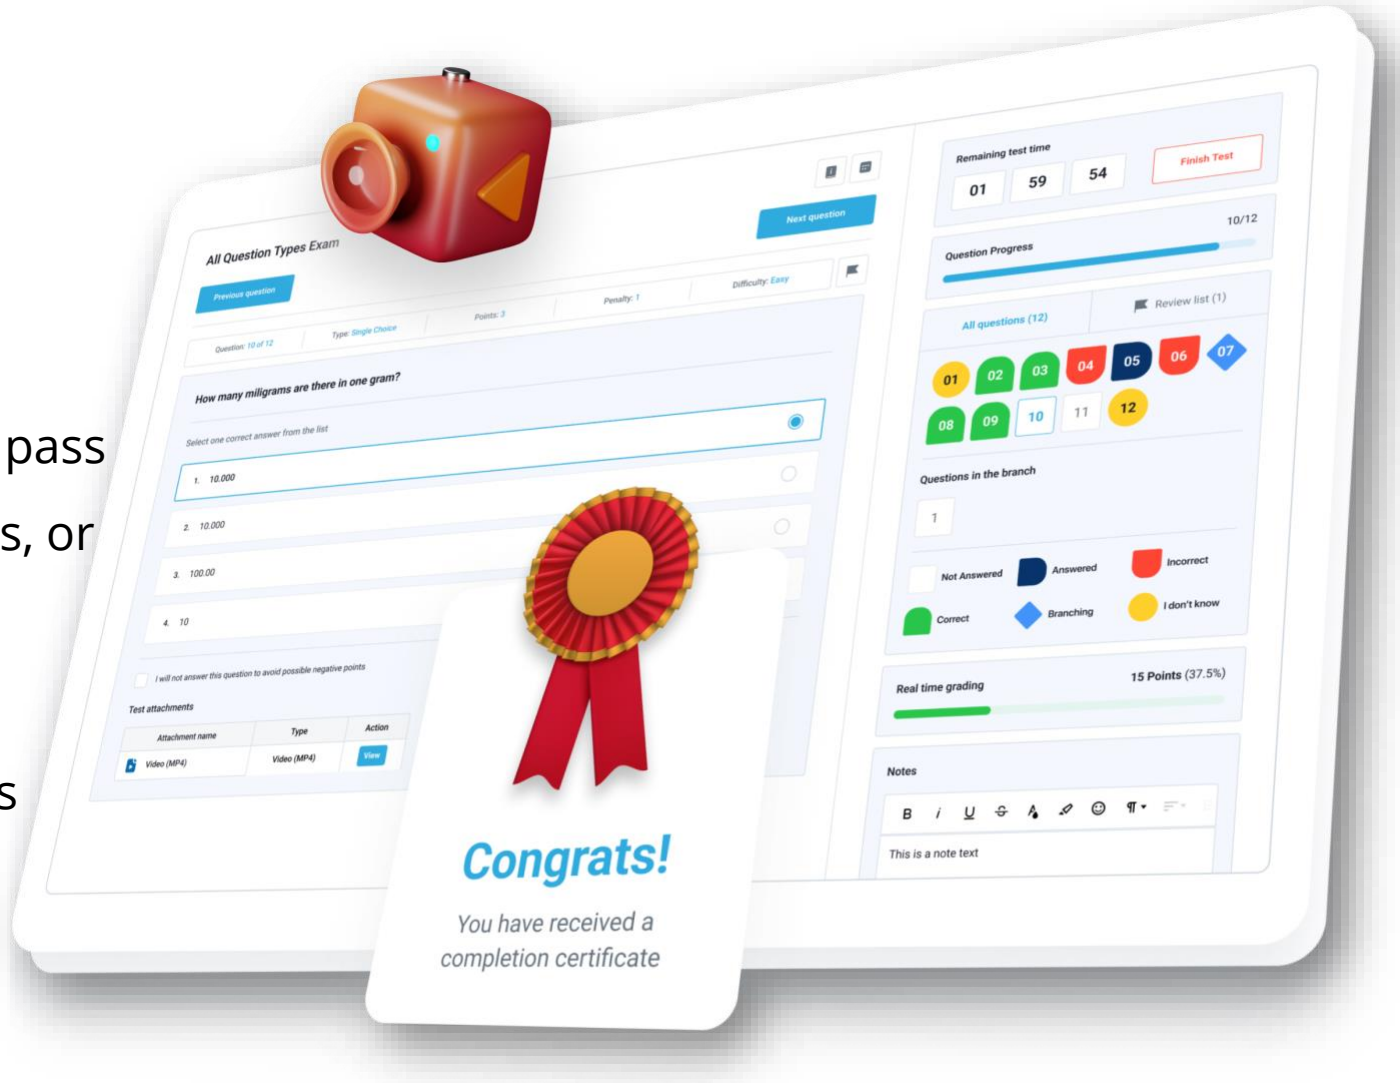
- Common sessions
- Test result verification
- Test attempt authorization
- Booking and cancelation deadlines
- Upcoming session notification reminder will be sen candidates for scheduled tests
- Special acommodations - 1 on 1 session with a proctor, extra time, and other accommodations

youtestme

Application

Certification

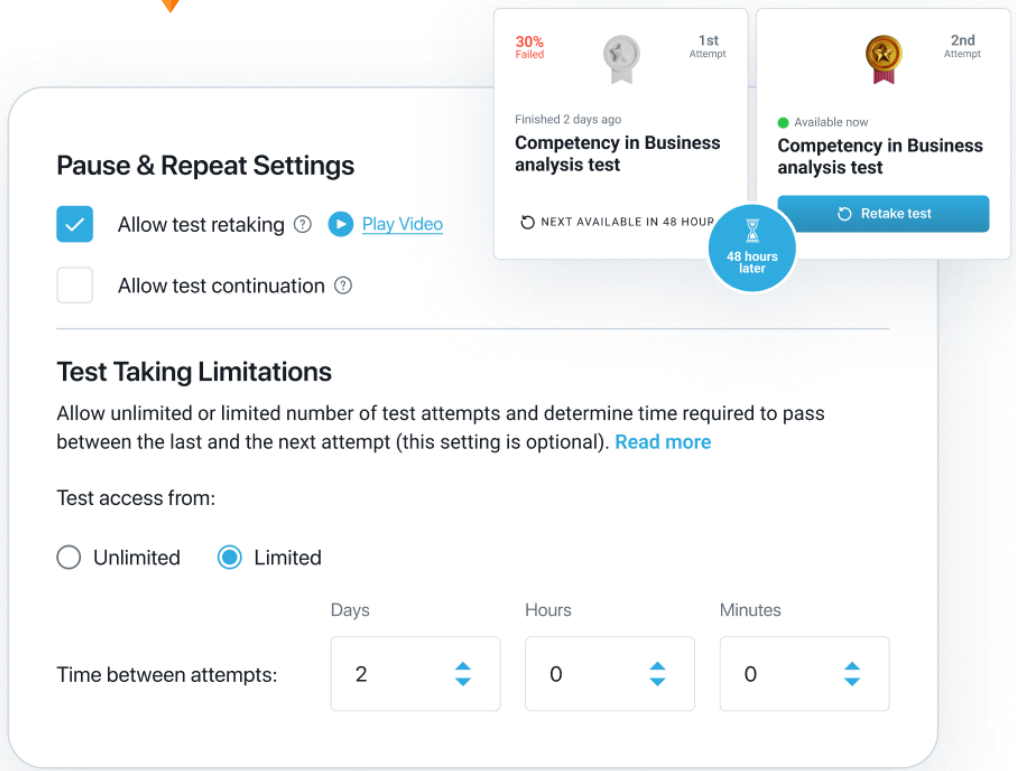
- Share certificates on social media
- Customize your certificates
- Export certificates in multiple formats
- Determine the minimum time required to pass between test attempts in seconds, minutes, or days
- Unlimited test attempts
- Custom certificate awards based on scores



Application

Recertification

Use Case Scenario: Many companies conduct assessments of their employees several times a year, such as every six months, to ensure their qualifications to perform their jobs. With advanced test retake features, companies can schedule automatic re-opening of test attempts to a specific day and specific hours.



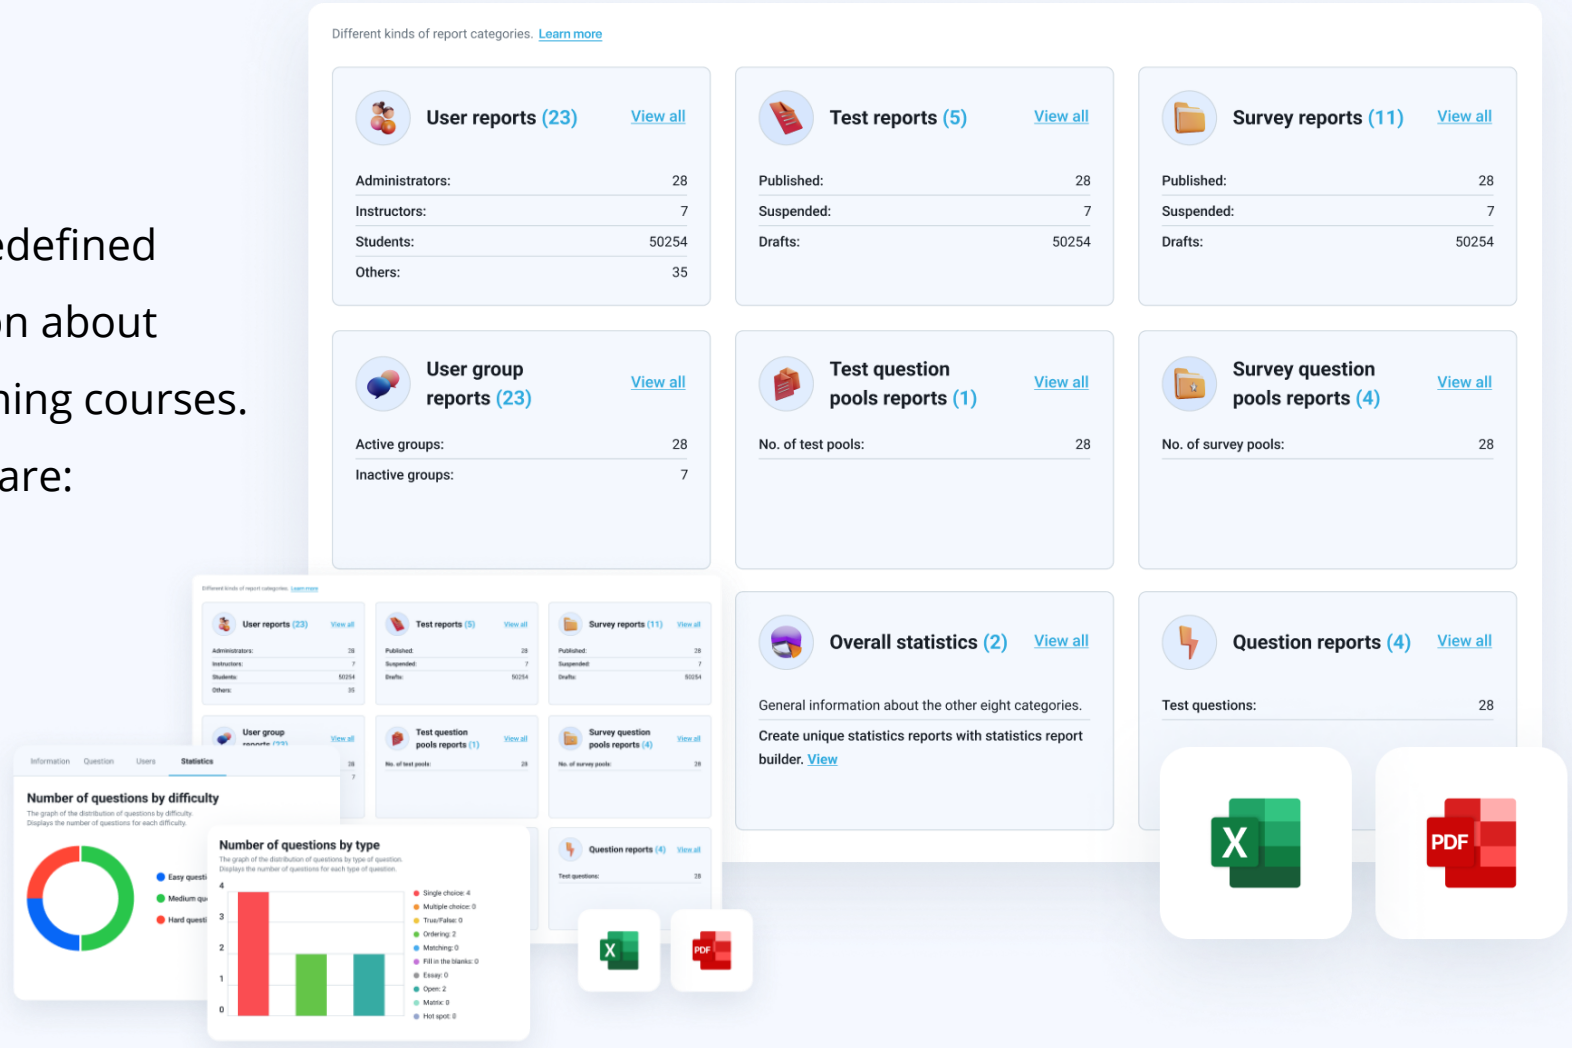
Reporting

Predefined Reports

YouTestMe features over 40 predefined reports with detailed information about users, tests, questions, and training courses.

Some of the most used reports are:

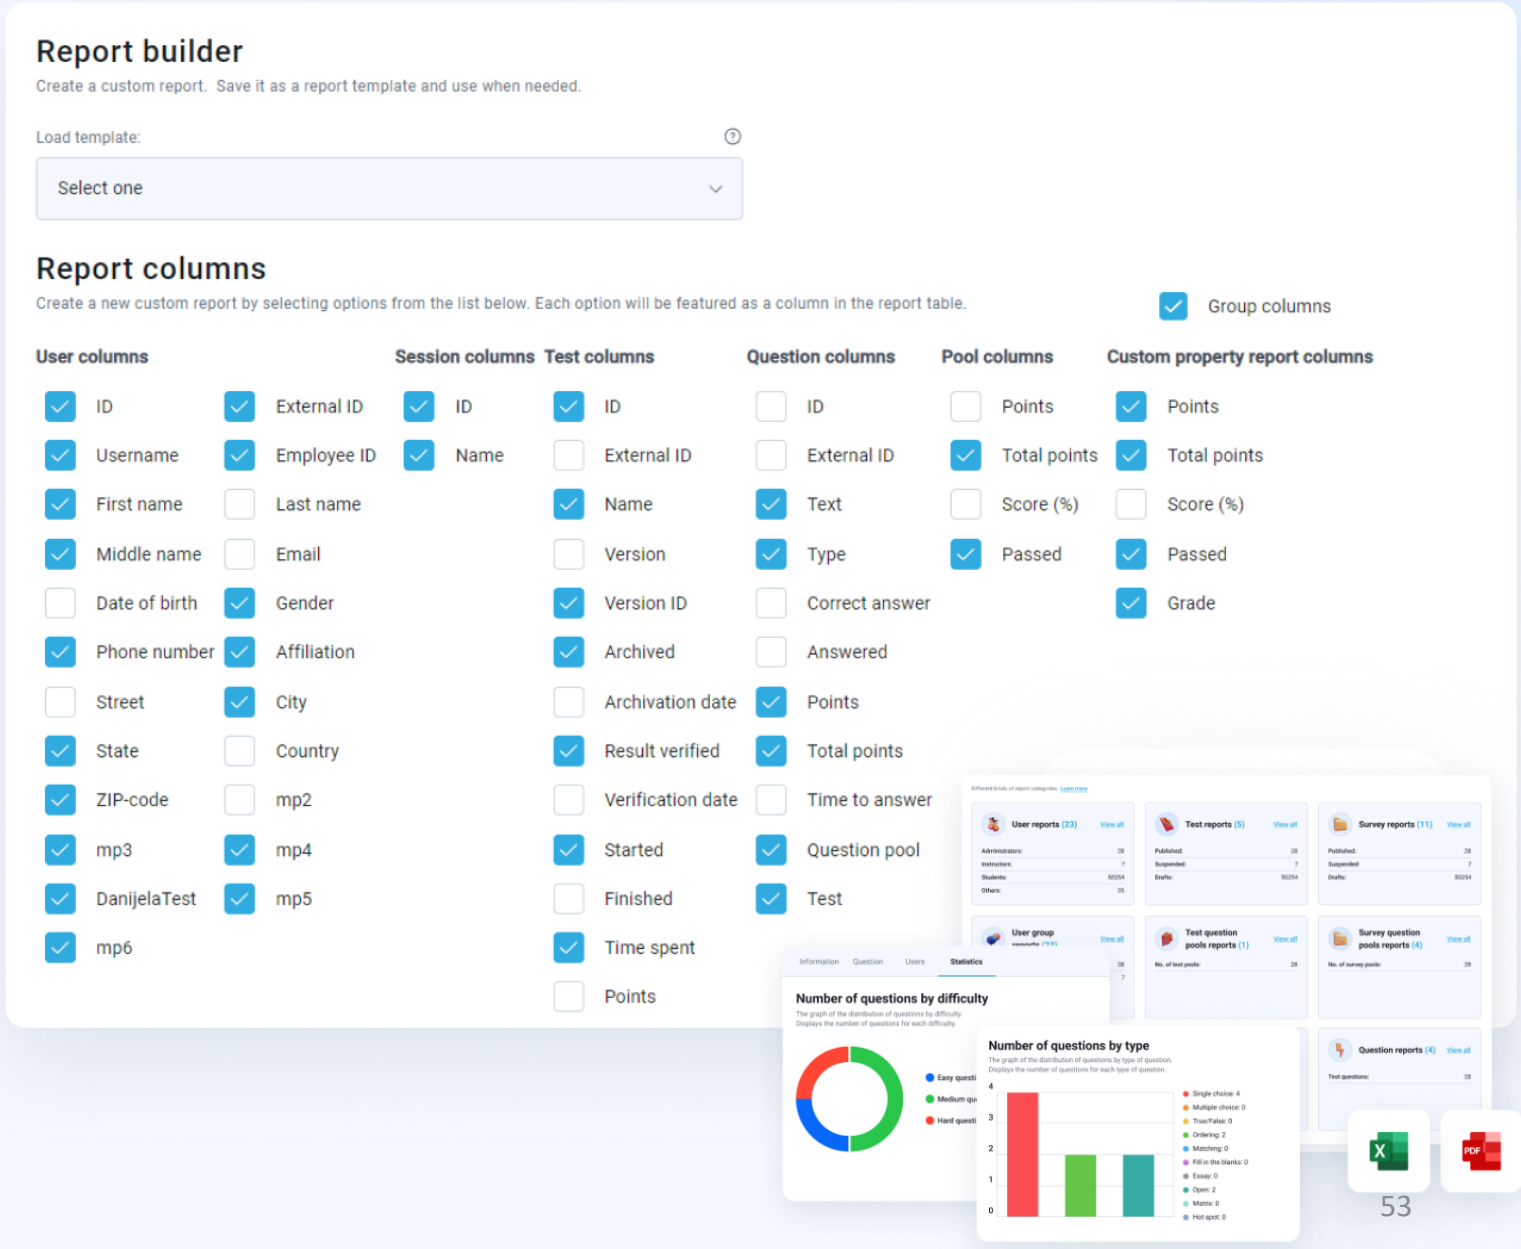
- Knowledge deficiency report
- Item reliability analysis
- Test pass rate
- Achieved certificates
- Billing reports



Powerful Reporting Capabilities

Report Builder

For more specific insight into test statistics, use our Report Builder module to create flexible and unique reports by using advanced search filters for choosing the necessary data. This feature also enables the efficient comparison of tests and analysis of individual test items.



Application

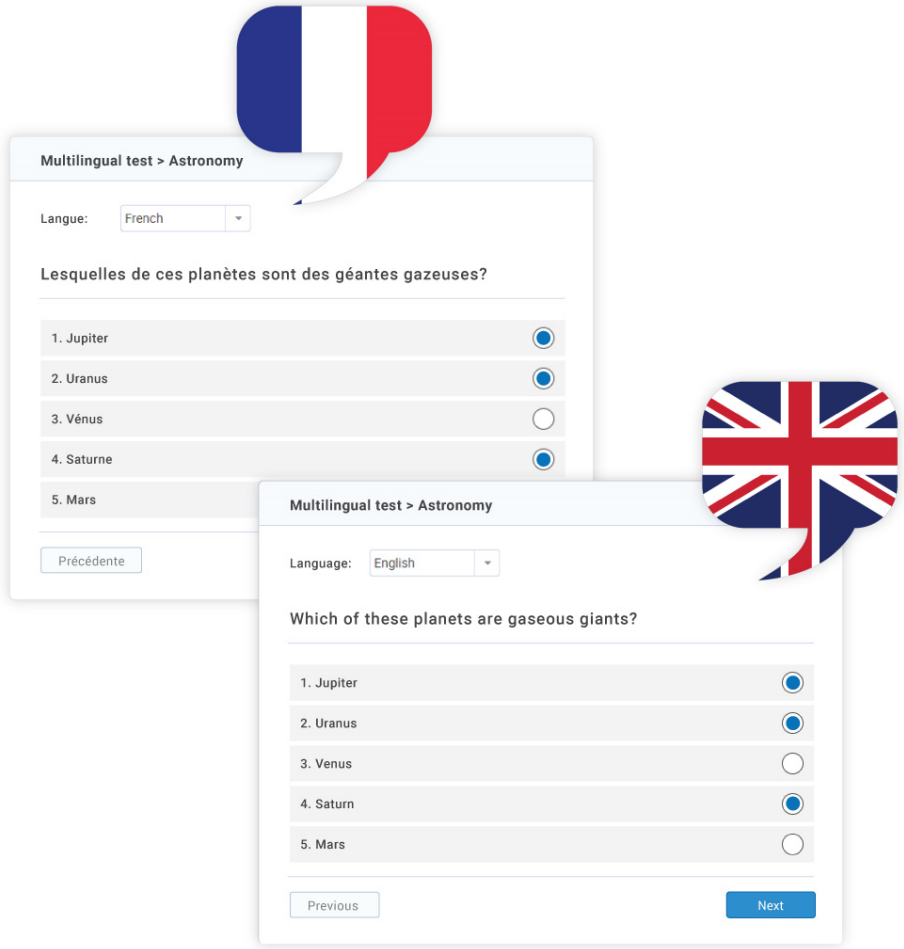
White Labeling

- Application personalization with your logo, theme and, colors
- Personalized Help center
- Personalized privacy policy messages
- Personalized URL
- Multilingual user interface
- Multilingual examination
- Automatic and immediate question translation
- Personal e-mail server with custom e-mail and notification messages
- Boost the visibility of your brand or institution
- Present our system as your own product
- Customize terms and conditions
- Widgets

Application

Multilingual Examination

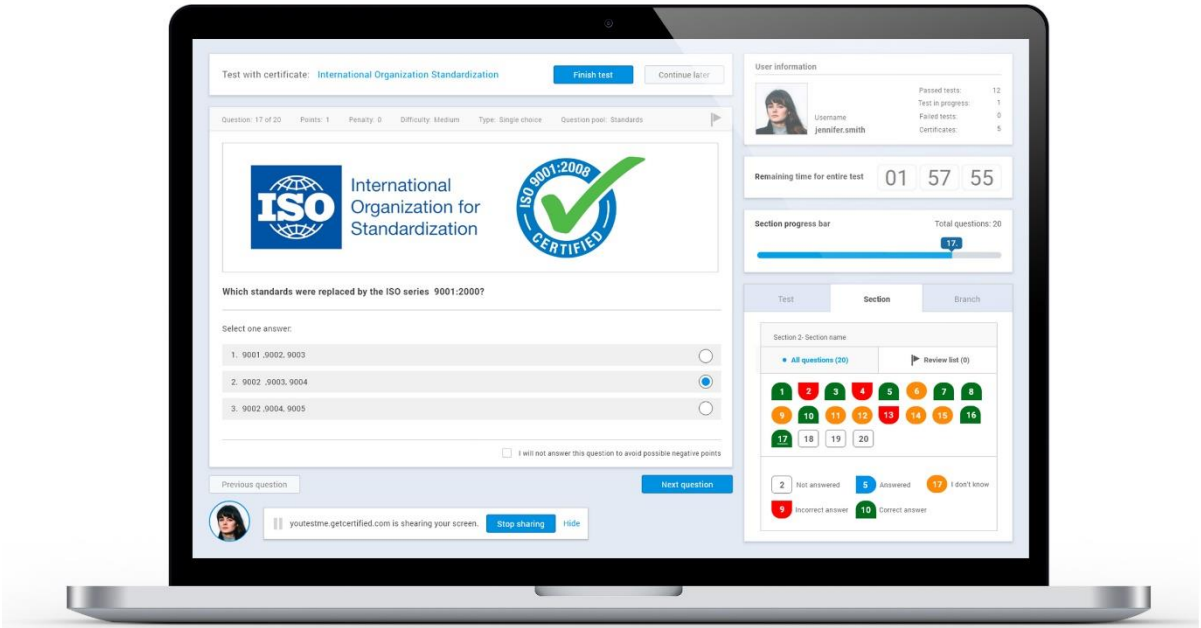
- Language Preference – multilingual user interface with over 100 languages
- Create different language versions of the same test
- No separate tests for each language
- Test management and reporting are more practical and less time-consuming
- Suitable for international organizations conducting certifications and tests in several languages



youtestme

Various Use-case Scenarios

- Certification and re-certification process
- Organizing competitions
- HR support and monitoring
- Employee training – create practice courses and certification exams for your employees
- Create classroom environment
- Suitable for color-blinded
- Public sharing examination platform – share your custom branded tests
- Annual exams available for student self-enrollment



Suitable for Color-blinded

Customization
Turnkey Solution

- Ability to accommodate different business models
- Tailored workflows based on client's requirements
- Create custom features and reports
- Edit application screens, delete and add fields
- Create custom file-sharing templates
- Brand the application with your colors and logos

Customization and Integration

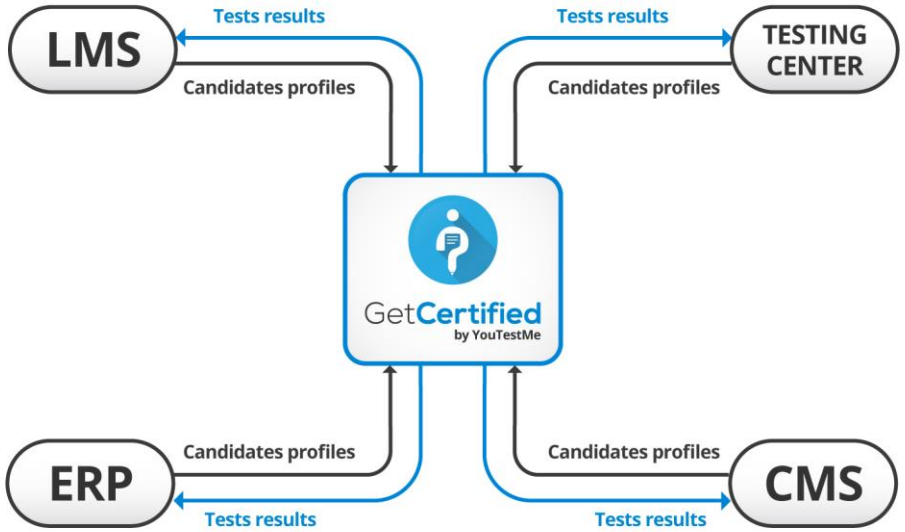
- Customize any part of the system to fully meet the requirements
- Make the application look and work exactly as needed
- Adaptation of YouTestMe API
- Minimal prices for additional development
- Agile development and fast delivery
- We respect client's deadlines

Integrations

Bring YouTestMe to Your Environment

- Perfect fit for an enterprise environment
- LTI, SCORM, xAPI, YouTestMe API
- Single sign-on mechanism (SAML 2.0, Open ID Connect)
- Multilingual user interface
- Integration with any used system or LMS
- Microsoft Active Directory Integration
- SAP or other Enterprise resource planning software (ERP)
- Alfresco or other document management system (DMS)
- Activiti Workflow or other workflow managers
- Export test to Pearson VUE package

Customization and Integration



Customization and Integration

- Export test results, statistics, and reports from YouTestMe GetCertified to communication and email apps, cloud storage, spreadsheets, calendars, etc.
- Import user and test data automatically from documents, spreadsheets, social networks, email apps, etc.
- Configure automated assignment of the users to the training course from external documents and spreadsheets

Credly

- Easily share your certifications with a global network of employers, educators, and peers
- Earn a wide range of badges and credentials, helping you showcase your skills and achievements
- Receive and display badges and credentials from YouTestMe directly on your Credly profile
- Share your certifications on social media, professional networks, or your personal website

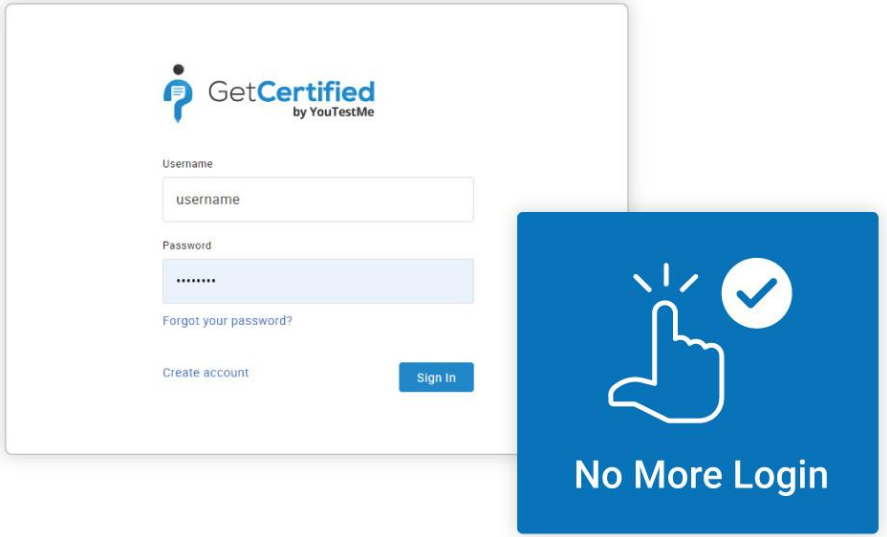
Customization and Integration

Single Sign-on based on SAML 2.0 and OpenID

- Integration with SAML 2.0 and Open ID allows single sign-on with multiple identity providers
- Unique credentials
- No need to log in multiple times
- Effortless access to exams from any other system: LMS, CRM, or HR software
- Easy on-boarding process
- Security tokens

OpenID Connect

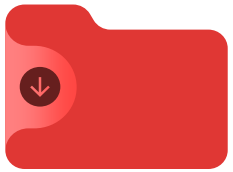
SAML v2.0 Security Assertion Markup Language

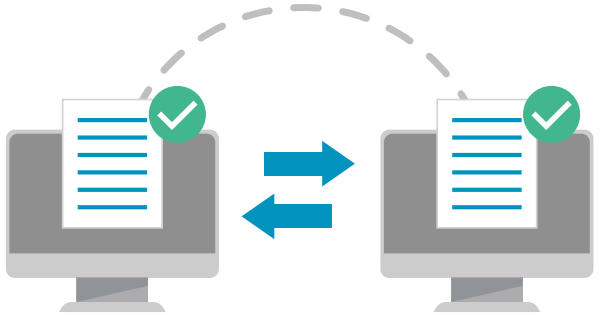


Customization and Integration

Data Exchange Protocols

- Flat file import/export
- Scheduled file sharing to external locations
- Configurable flat-files templates to support your standards
- Automated data migration from legacy systems and databases
- Supporting major standards such as LTI, QTI, SCORM, xAPI
- Upload user results from remark through XML files - job and manual





youtestme

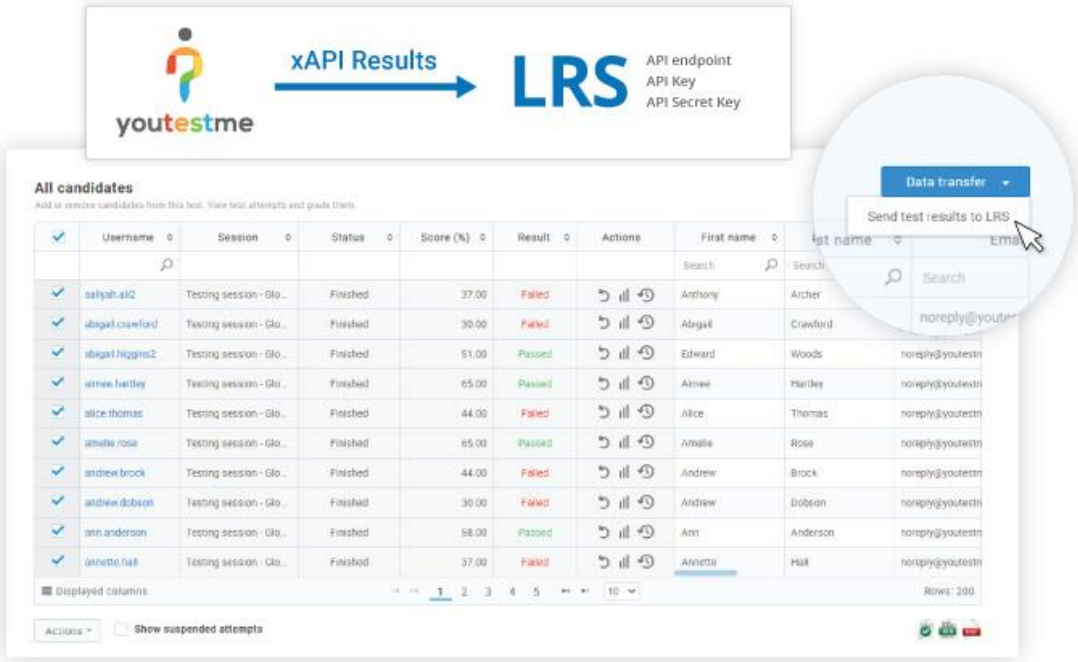
Customization and Integration

Data Migration

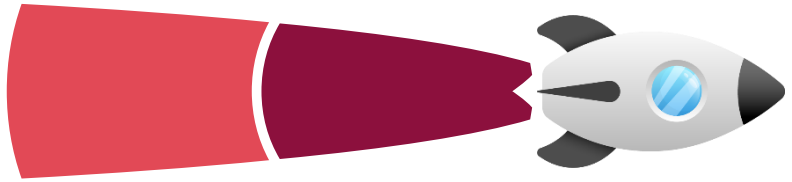
- Import questions from Excel files
- Import question pools from Excel files
- Import and export questions from pools

Customization and Integration

Sending Data to xAPI Learning Record Store



Experience API (xAPI) is an industry-standard that allows tracking, storing, and sharing the user's learning experience across platforms and in multiple contexts. A Learning Record Store (LRS) is the heart of every Experience API (xAPI) ecosystem. Its function is to receive, store, and return information on learning experiences, achievements, and job performance. YouTestMe can seamlessly forward this type of data to any LRS.



Customization and Integration

Use Case Scenario – Organizing Military Candidates across the World

- Military bases across the world
- Users are synced from external systems
- Candidates in different time zones
- Protected network setup and deployment
- Cheating prevention maximized
- Proctors automatically assigned to the testing sessions and locations
- Tests divided into sections - each section can branch into multiple question paths
- All the data is recorded; custom reports are generated automatically
- Reporting data exported to external systems

Onboarding and Customer Care

Flexible and Accessible
Onboarding Process

- Dedicated point-of-contact
- Identifying and analyzing your exact needs
- Online training sessions
- Custom-made documents and videos for your use-case scenario
- Step-by-step instruction manuals
- Dedicated help center
- Organizing dummy tests for students

youtestme

Onboarding and Customer Care

Training and support

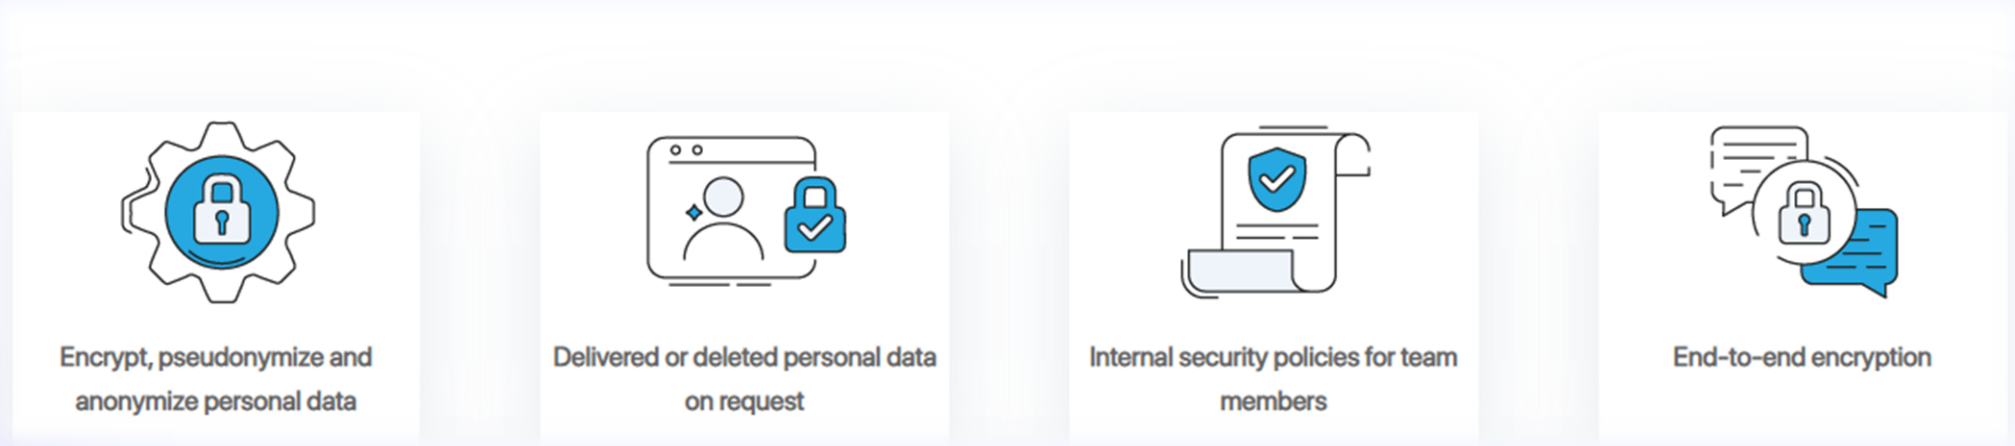
- 24/7 support
- Wiki site with valuable instructional materials
- Playlist with important workflows
- The website with detailed descriptions of all features
- Help center
- Personalized training materials for every customer
- Live online training sessions
- Dedicated technical and support teams

youtestme

High Level of Security

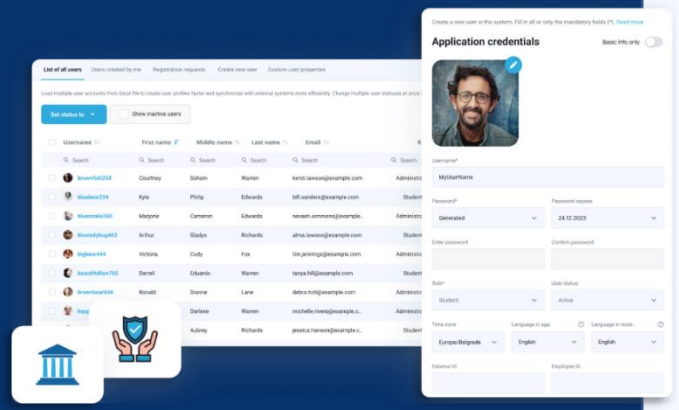
YouTestMe GetCertified source code passed U.S. Government verifications and is regularly rescanned in order to allow sending regular upgrade packages to its U.S. Government clients.

YouTestMe has participated in the risk management process to ensure that our solution complies with the latest security standards created for the information system used in the U.S. Government.



NOTE: We can, at any time, provide the necessary documentation, additional information, or assistance to the client's certifying bodies.

Compliance



GDPR - The GDPR provides users that reside in the EU with certain rights, specifically the Right to be Forgotten, the Right to Object, the Right to Rectification, the Right to Access, and the Right to Data Portability. Each of these rights is meant to safeguard the personal information of EU citizens. The YouTestMe GetCertified platform provides the tools necessary to allow our customers to fully comply with the GDPR requirements. GSA

ISO 27001 - All system components are always hosted exclusively using the infrastructure provided by our hosting provider - OVH. OVH guarantees that its Private Cloud complies with ISO/IEC 27001:2013 certification, SOC 1 Type II (SSAE 16 and ISAE 3401) and SOC 2 Type II international certifications, and PCI DSS level 1 certification.

ISO 9001:2011 – YouTestMe is fully compliant with ISO 9001, the international standard that specifies requirements for a quality management system (QMS). YouTestMe follows the seven principles of ISO 9001: customer focus, leadership, engagement of people, process approach, improvement, evidence-based decision-making, and relationship management.

Schedule 70 - YouTestMe partners with a U.S.-based service-disabled veteran-owned business, a premier and trusted provider of Information Technology to government organizations to resell YouTestMe software. You can quickly buy our application through the GSA Schedule 70 contract vehicle.

Section 508 - YouTestMe is in compliance with all applicable Section 508 guidelines and is constantly updating the software to be more accessible to all users.

FedRAMP - YouTestMe had its Cloud Service Offering authorized by FedRAMP through an individual agency and is continuously monitoring the security of its cloud technologies to be in line with the best security practices required by the U.S. Government.

On-Premise Deployment

With YouTestMe, you can have full control over the application and data throughout the examination process. **We fully support on-premise delivery**, which provides government clients with various advantages:

- The entire system can be hosted behind the government firewall
- The client receives a preconfigured plug-and-play system as a predefined virtual machine
- The client gains full control over the system and the data

YouTestMe Cloud Hosting

Compliance for hosting healthcare data in Europe and HDS compliance in France

HIPAA and HITECH compliance for hosting healthcare data in the US

CSA STAR

- Hosting data centers available on all continents
- Provided scalability without compromised security
- Infrastructure constantly monitored
- Cloud deployment with Anti-DDOS solution

ISO 27001 Standard

Hosting Provider Options

OVHcloud

- Cost-effective
- One of the world's largest hosting providers

Microsoft Azure

- FedRAMP-compliant servers
- Most frequently used by our clients

amazon web services

- FedRAMP-compliant servers
- Fast-growing and promising solution

Pricing

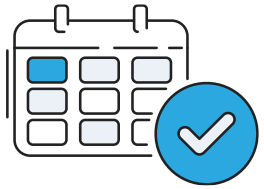
Purchase or use as a service or rent-to-own

Purchasing software

- One-time fee
- 30-day money-back guarantee
- Full application ownership and control

SaaS (Software as a Service)

- Pay monthly or annually
- One offs – use the software on demand for an occasional testing session
- Pay per usage – pay only for the months when conducting tests



Rent-to-own

- Purchase the software in 36 installments with no interest rate
- Custom developed features
- Host on YouTestMe servers or your premises

Pricing Plans for Everyone

- Most cost-effective solution on the market
- Software solutions for small businesses
- Software solutions for Government and Enterprise clients
- Standard, predefined pricing packages
- Custom-tailored pricing plans based on requirements

Advantages of YTM SaaS over other Solutions

- Multi-Instance Architecture (vs. Multi-Tenant)
  - Each client's data is in the separate database
  - Each client has a separate customizable application
  - Each client application and data can be easily migrated to another hosting platform
- Rent-to-Own option
- The application can be purchased and migrated to any other data center at any time
- Possibility of client-specific customization and integrations
- Client is the owner of the data
- Flexibility and Scalability

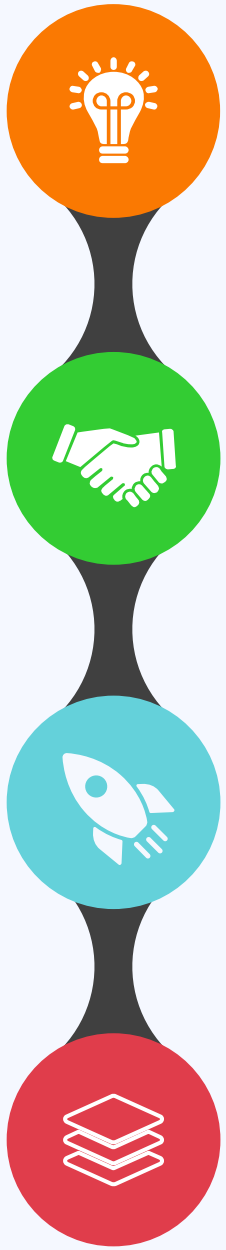
Customization and Integration

The System that Grows with Your Business

- Continuous development
- New custom features and modules
- Additional integrations with other systems
- Transition to other software editions
- Custom-made workflows for improving your business

Employee onboarding process

1. Employees get **credentials via email** or register into the app using a **computer or phone**
2. Employees are **automatically assigned** to their trainings
3. Trainings consist of lessons with **multimedia content**
4. There is a **test at the end** of each training
5. After finishing the test, employees **earn a certificate**



Question randomization option

Recertification on a yearly level, or any other defined time period

Automatic reminders for employees for upcoming obligations

Automatically generated reports for department heads, delivered in desired format (Excel/email/directly in app)

youtestme

Turnkey solution

Data import and system setup process

Based on detailed analysis of your business practices and training material, **our team provides you with a complete turnkey solution** for setting up your system.

You can modify the application and add new content whenever you want.

USE CASES

DRIVING LICENCE THEORY EXAM

USE CASE
DRIVING LICENCE THEORY EXAM

The driving school located in Ontario has undergone a digital transformation.

They faced a significant challenge in automating the application and test-taking processes for the DL theory exam, which was previously **conducted on paper**.

Before implementing YouTestMe, **candidates had to bring physical documentation and pay the exam fee in person at the testing center.** Additionally, they had to take the theory test at physical locations.

USE CASE
DRIVING LICENCE THEORY EXAM

Our solution streamlined test-taking processes and **eliminated the need for in-person transactions**, making the experience more convenient and accessible for all candidates. They can now complete the process and **pay the exam fee online**, significantly reducing the workload of staff.

Our platform enabled candidates to take
the theory tests remotely from any location.

Reduced workload

Tests are done remotely from any location

Exams are paid online

USE CASE
DRIVING LICENCE THEORY EXAM

Four different testing sessions were organized:

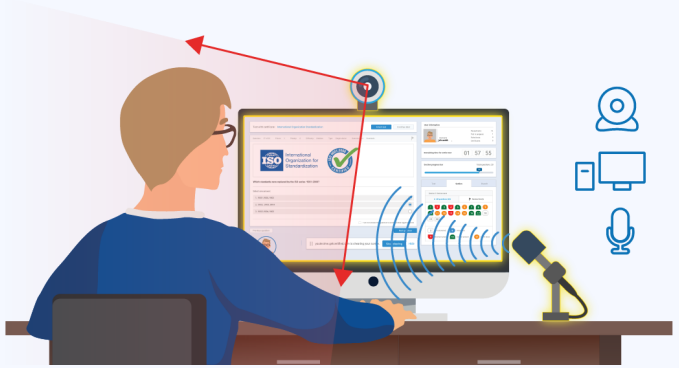
Paper-based exam at a testing center with 32 seats

Online exam in Toronto Virtual Room, with proctors monitoring 80 candidates in real-time, and with no registration fee

Online exam with automated proctoring, self-enrollment, open testing window, and a fee defined by the client

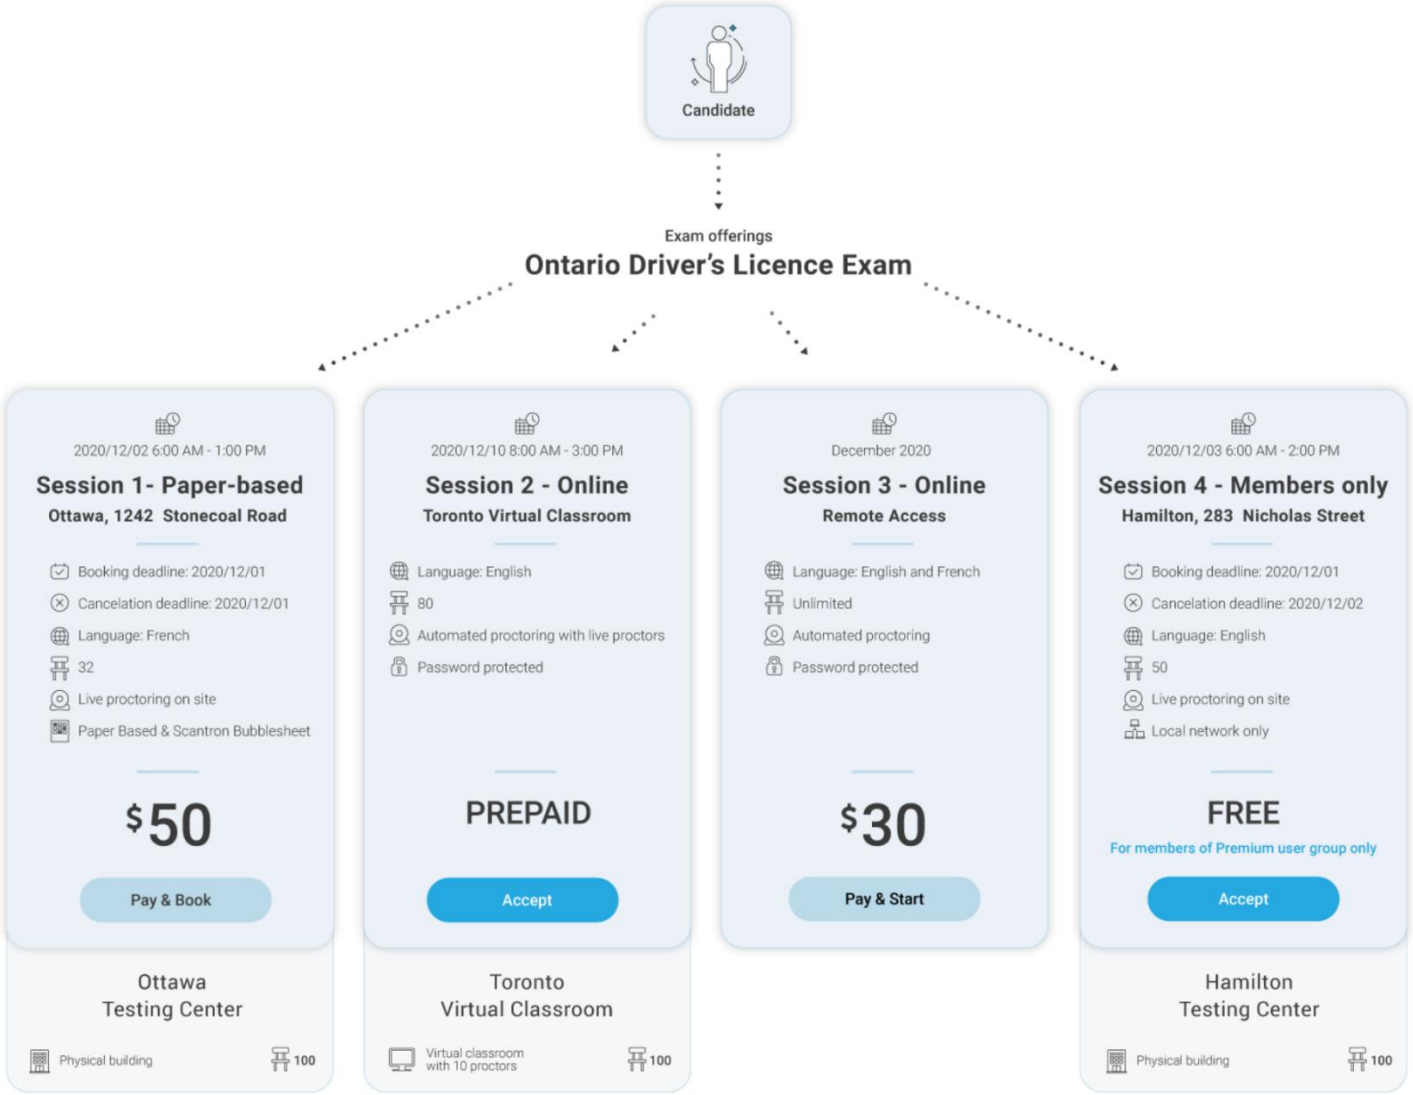
Exam available only to the Premium Group members that pay their membership fees in advance

Using YouTestMe services, a driving school wanted to lighten the workload and **simplify the process through a custom-built platform.**



youtestme

USE CASE
DRIVING LICENCE THEORY EXAM

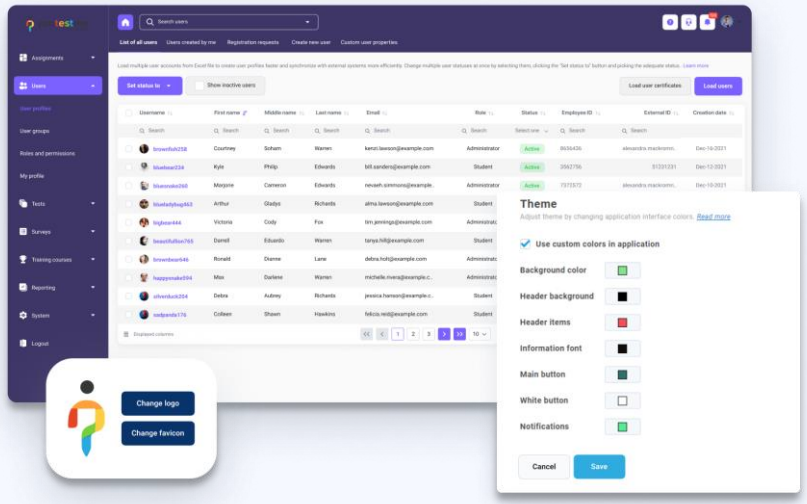


Security and reliability

YouTestMe has measures in place, such as secure login systems, encrypted data storage, as well as online and AI proctoring, to ensure the security and reliability of our platform.

How does it work?

1. Send us your exams, certificates, and candidate list (in any format) to import into your platform.
2. Send us the exam rules and exam dates.
3. Send us the email notifications you would like candidates to receive.
4. Specify the intervals for email reminders for the upcoming exam.
5. Specify the details for the candidate's score report.
6. Specify the reports you would like your team to receive via email



The outcome will be the following

- Your team will not have to configure anything
- Candidates will receive emails with personalized exam links
- Your administrators will receive their reports
- Our 24/7 support will be available every step of the way

youtestme

youtestme

With the **on-premises** hosting option and **firewall protection**, you can have **complete control over the system and data** throughout the examination process.

Our **onboarding process** is tailored to the client's specific needs and requirements

We assist the client in setting up and configuring the software, including integration with any existing systems and migration of data from previous solutions.

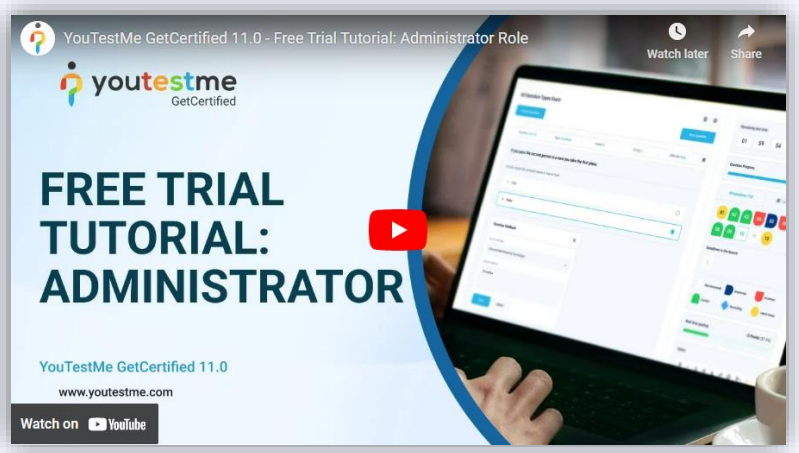
ADMINISTRATOR ROLE

Administrators are essential for managing, customizing, and securing the system. With extensive permissions and responsibilities, they oversee user management, system configuration, branding customization, and data security. The administrator role provides exclusive access to all system aspects and allows restricted access for managers, ensuring a high level of control and privacy.

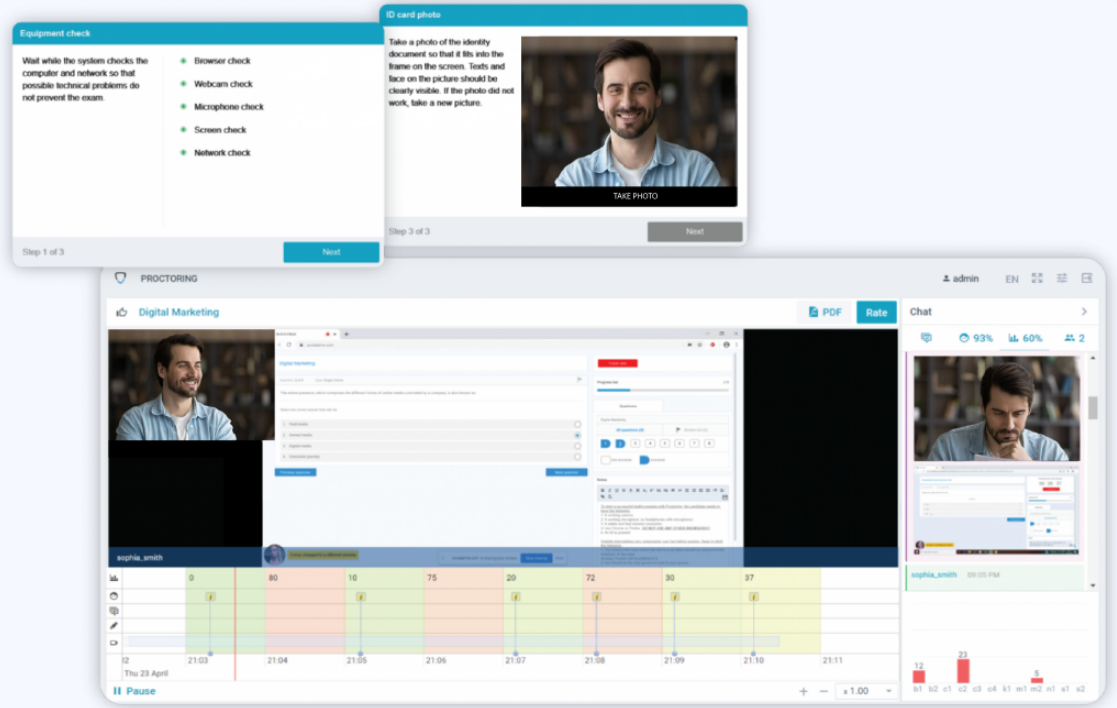


REPRESENTATIVE ROLE

- The Candidate Service Representative or **Test Organizer** role is responsible for **defining the exam settings** and managing the testing sessions based on the number of purchased exams.
- **A testing session** serves as the organizational unit for an exam and includes important details such as the availability of when the exam can be started, whether there is a booking and cancellation deadline, whether authorization is required, and if it should be paid or free of charge.
- CSR determines when the testing sessions will be available, taking into account the most suitable times for students. They also create **a session calendar** that outlines when the testing sessions will take place.

PROCTOR ROLE

- As a testing organization, ensuring the integrity and credibility of your exams is crucial. That's where the proctor role comes in.
- **Proctors are responsible for ensuring that exams run smoothly, candidates receive the necessary support, and all rules are followed.**
- At YouTestMe, we provide expert **AI and Live proctoring services** that guarantee the security and reliability of your testing system.



E-TESTING CENTER
STUDENT'S PERSPECTIVE

- ✓ **User-friendly interface**
- ✓ **Mobile-friendly design**
- ✓ **Automated scheduling and reminders**
- ✓ **Customizable assessments**
- ✓ **Instant feedback and results**
- ✓ **24/7 support**

User-friendly interface

We believe that testing should be easy and stress-free. You don't need to be a tech wizard to use our software!

- ✓ **Intuitive navigation:** Our interface is designed to be easy to navigate, with clear and concise menus and buttons.
- ✓ **Customizable dashboard:** Choose the widgets and tools that are most important to you and arrange them in a way that makes sense for your workflow.
- ✓ **Multi-language support:** Choose from dozens of languages to create tests that can be easily understood by anyone.
- ✓ **Responsive design:** Whether you're using our software on a desktop computer, laptop, tablet, or smartphone, you can access your tests from anywhere.

Automated scheduling and reminders

Automated notifications and reminders are powerful features that allow users to stay on top of their testing tasks and deadlines. This is especially useful for candidates who have multiple courses to manage simultaneously.

- ✓ **Customizable notifications:** Allow users to create personalized notifications and reminders based on their needs and preferences.
- ✓ **Automatic reminders:** Can be set up to automatically remind users of upcoming tests or deadlines.
- ✓ **Schedule notifications:** Users can create notifications for scheduled tests or assignments. These notifications can be sent to all candidates or a select group.

USE CASES

IFSE USE CASE

The Investment Funds Institute of Canada (IFIC) and its educational arm - IFSE Institute, **fully transitioned to our Online Testing Center model**

They are using our **customized SaaS** to perform online testing in English and French, monitored using YouTestMe **proctors 7 days a week**

More affordable than testing centers

Save money by **automating scheduling, payments, test creation, and reporting** (no manual work)

Make tests **more accessible** to their students (no travel expenses) in the most secure way of knowledge-testing (**artificial intelligence and human monitoring**).

Online Testing Center met their **regulations for live proctoring**.

IFSE USE CASE

Challenge:

- Administering numerous exams in large volumes, different locations, languages, and formats.
- Required an end-to-end examination solution for housing, categorizing, and delivering tests, migrating historical data, and automating processes.

Solution:

- YouTestMe GetCertified platform provided a **unique set of features** and services tailored to IFSE's needs.
- **Secure testing** experience with advanced automated and live proctoring features.
- **Multilingual interface** and test content for improved accessibility.

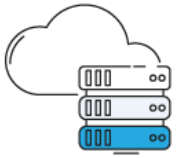
Learn More

Results:

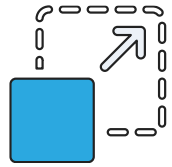
- ✓ Seamless management of exams in **different locations, languages, and formats**.
- ✓ **Enhanced exam security** and validity with **advanced proctoring** features.
- ✓ Improved user experience with a **bilingual interface and automated processes**.

Main Benefits

Enterprise solution



On-premise or cloud version



Scalable architecture

Purchasing or renting

Customization and personalization

Proctored exams

Data security

Software packages optimized for different types of organizations

Additional software development available on-demand

Integration with other systems
