

Introduction

YouTestMe GetCertified is a web-based platform for knowledge examination, training, and certification, featuring an online proctoring and invigilation system.

End-To-End Solution for High-Stakes Exams

Our technology, delivery method, and security procedures set us apart. For these reasons, our clients come from:

- Government, military, public sector
- Corporate sector
- Education sector

Benefits for Government, Military, and Public Sector

Developing solutions for major U.S. government institutions required going through a comprehensive certification and accreditation process to ensure that our solution complies with the latest security standards.

YouTestMe GetCertified is a superior solution that is:

- Scalable to an unlimited number of active users
- Compliant with U.S. government standards
- Adjustable to any scenario
- Safe to operate behind a government firewall

Benefits for the Corporate Sector

- Seamless data syncing with the existing enterprise environment
- Ensuring more effective HR by organizing training courses with engaging content for onboarding and employee certification

- Opportunity for full branding through white labeling
- The possibility of selling exams worldwide

Benefits for the Education Sector

- Administrative burden reduction
- Automated test assembly tools
- Accessible design for users with disabilities
- The high-stakes exam integrity maintenance
- The worldwide reach scalability
- Interactive software

- Question management - *store questions in pools and generate question statistics*
- Learning management system - *a solution for step-by-step training and employee compliance training*
- Integrations and data exchange - *a perfect fit for any e-learning environment*
- Complete branding and white labeling

Technology

YouTestMe is a large-scale, multi-tiered, scalable, reliable, and secure network application built on Java Enterprise Edition technologies. It can be accessed through a web browser on desktop, tablet, and mobile devices.

The system also utilizes in-house technologies G-DAO framework and DB Analyzer, which the company has developed over the past 30 years and has been applied to various Fortune 500 companies.

The system can be used as a service on the YouTestMe and client's cloud or delivered as a Virtual Machine to client premises.

We also offer system customization according to the client's requirements, such as custom feature development. Our development pricing is among the most competitive in the current market.

About YouTestMe

YouTestMe is a Canadian company with headquarters in Toronto aiming to revolutionize the field of knowledge-testing with software for end-to-end secure online examination. It is an operational name of Malloc Inc - a company with 30 years of experience building and customizing enterprise systems for various Fortune 500 companies.

Our goal is to continuously develop our platform's capabilities by following and creating new trends in the e-learning industry and always providing systematic yet simple solutions.
